## **OUTDOOR PRODUCTS® DRAGONFLY™ PACK IS SURE TO CREATE A BUZZ AMONG OUTDOOR ENTHUSIASTS**

### **Durable, Flexible, Indispensable Pack is Great for the Great Outdoors**

Whether you're an avid backpacker, or this is your first trek in the woods, anyone spending any time in the great outdoors wants a versatile, high-quality pack that can keep up with their adventure. And the Outdoor Products® Dragonfly™ external frame pack fits the bill perfectly — and comfortably.

Padded shoulder straps and hip belt adjust to fit adults and youngsters alike, making the new Outdoor Products Dragonfly pack ideal for outdoor enthusiasts of every stripe from first time trekkers to gold metal scouts. The Outdoor Products Dragonfly pack's top-loading main compartment, which opens wide to gobble up any assortment of clothes and essentials, will prove both roomy and easy to access. Of course, fitting your needs and preferences is as important as fitting your gear. That's why this ingenious pack can be configured any way you want. Taking the kids on a weekend scouting excursion? Bring along rain gear, changes of clothes, attach a sleeping bag and you are off and hiking.

For all-important hydration, the Outdoor Products Dragonfly Pack features dual side pockets to fit 32-ounce water bottles (sold separately). Other items you can't live without — cell phone, MP3 player, camera — slip into three additional pockets, ideal for quick storage and retrieval without disturbing the rest of your gear.

You know that years of trailblazing can be hard on a pack — and so does Outdoor Products. So the Outdoor Products Dragonfly pack is constructed with a 30" unique Enduroflex™ frame, made to endure treks in the mountains, slogs in the rain and the tornado that can be your kids. Durability is just one detail Outdoor Products looks after; comfort is another. A clever design makes the frame flexible enough to move with you, yet stiff enough to provide needed support. And unlike aluminum frames, the strong plastic Enduroflex™ frame won't rust or corrode.

At 2,780 cubic inches and measuring 24"H x 14"W x 8"D, the Outdoor Products Dragonfly Pack is roomy. A bungee compression system can squish the pack into an array of sizes. And a mesh suspension system keeps you cool even with the heaviest load.

Outdoor Products has been designing durable gear for outdoor enthusiasts since 1973. The new Outdoor Products Dragonfly Pack is the next generation in a tradition of making top-quality packs.
