## **GEAR UP FOR THE 2010 TROUT SEASON WITH DELUXE LITTLE CLEO® KIT Six Pack of Trophy Trout Spoons Hand Selected By Experts at Acme® Tackle Company**

By bringing together six Acme 1/8-oz. Little Cleo® Spoons in the most effective and versatile trout producing colors coast to coast, Acme® Tackle Company has taken the guesswork out of gearing up for the 2010 trout season.

Acme's Deluxe Little Cleo Kit (#KT-35) gives anglers all the ammo they need to catch big rainbows, browns and brookies in a wide variety of waters and under a range of conditions — all in a handy resealable plastic case. The 1/8-oz. size of this popular spoon is ideal for light-tackle trolling or casting with ultra light gear when trout get finicky (such as in gin-clear lakes or shallow mountain streams). Despite its diminutive size, the unique hump-backed shape of the 1/8-oz. Acme Little Cleo provides a full-bodied profile that helps create the illusion of a fat baitfish. This is one reason why the largest trout — those on the hunt for a real mouthful — zero in on and attack this popular metal lure.

Another big reason for Little Cleo's success is its enticing, erratic action. With its wide, deeply curved body, this spoon exhibits an exaggerated wobbling action that triggers the predatory instincts of trout and other freshwater gamefish. This action doesn't diminish even at ultra-slow retrieve or trolling speeds, making it perfect for times when trout are a little sluggish or extra wary. Sometimes a slow, stop-and-go retrieve with a Little Cleo is more than even the toughest-to-fool trout can resist, getting bit when other baits and lures are getting blanked.

With these six Acme Little Cleo colors, trout anglers will be ready for success in any situation. Life-like Rainbow Trout and Brown Trout finished Little Cleos are perfect in waters where big adult trout feast on fry and fingerlings. Acme's brightly colored Chartreuse/Orange and Fire Tiger Little Cleo spoons are a great choice when lake water is stained or creeks are running high and muddy. This kit also includes Acme Little Cleo spoons in Frog and Candy, two of the most successful lure colors ever created for taking trophy trout on the troll. And because Acme uses the highest quality painted finishes, stainless split rings and needle sharp treble hooks, these Little Cleos will keep on catching trout season after season.

To learn more about arming yourself with the Acme Deluxe Little Cleo Kit this trout season — or the company's full line of fish-catching metal lures for fresh and saltwater angling — contact Acme Tackle Co., P.O. Box 72771, Providence, RI 02907 • Telephone: (401) 331-6437 • **Or [www.acmetackle.com](http://www.acmetackle.com)**
