BASCHIERI & PELLAGRI HEAVY DOVE AND QUAIL SHELLS TAKE WINGSHOOTING TO A NEW LEVEL

B&P Ammunition Newly Designed Shotshells for Bird Hunting

If sending your bird dog out to flush a convey of quails or taking home your limit dove on opening day gets your blood pumping – then the Baschieri & Pellagri (B&P) Heavy Dove and Quail line of ammunition is for you. The superior shotshells come from the company’s unique blend of high quality materials, innovative processes and passion and commitment to the hunting community. The result: unmatched performance, low-recoil, tight patterning with hard-hitting pellets for the ethical wingshooter.

Arguably, hunting quail and dove means having to test and trust your eye-to-hand coordination more than hunting any other animal. The small size and often erratic flight patterns make hunting these birds one of the most challenging sports around. The B&P Heavy Dove and Quail shotshells are designed to keep consistent and effective spreads for the most reliable and precise shot giving you the superior split-second performance you’ll need. All of the ammunition in this line features the company’s renowned Gordon System, which works to enhance the combustion of the powder and overall performance of the shot. This makes for a more comfortable shot with lower recoil as well as a faster second shot.

Get ready to flush out a covey of quails or take aim at the right dove with the B&P Heavy Dove and Quail line which includes five different shotshell options including a 12-gauge, 1-1/8 oz. shell available in lead and steel; a 20-gauge, 1 oz. shell; a 28-gauge, 15/16 oz. shell; and a 410-gauge, 1/2 oz. shell. All ammunition in the line is available in a variety of sizes to fit your need and measures 2-3/4 with the exception of the 410-gauge shell which has a length of 2.5.

Baschieri & Pellagri (B&P) Ammunition was founded in 1885 when Settimio Baschieri, a dedicated hunter and Guido Pellagri, a chemistry graduate, first created a smokeless or “white” gunpowder. At the time, only black powder was used which required great amounts of powder and produced large amounts of smoke. Since then, the company has grown to become a premier, worldwide leader and producer and distributor of powders, Gordon System® cases, plastic wads and cartridges for smooth bore guns. Through a simple but perfected equation of superior materials, uniquely proprietary practices and the finest, most devoted people, the company has continue to innovate and deliver the best products becoming the first choice for hunters and competitive shooters worldwide.
