**ONTARIO KNIFE COMPANY® RELEASES THE ULTIMATE CONCEALED COMBAT KNIFE FOR U.S.
MILITARY AND LAW ENFORCEMENT**
Ontario Knife Company XM® Strike Fighter®

An easy-to-access concealed knife can be an officer's or operator's saving grace when faced with a life and death encounter in the field — which is why Ontario Knife Company® has introduced the ultimate automatic opening combat knife — the Ontario Knife Company XM Strike Fighter. Constructed with 154 CM stainless steel with a Tribocote R40 black powder coated finish — creating incredible toughness — the Ontario Knife Company XM Strike Fighter provides U.S. Military and law enforcement personnel with a sleek, compact and extremely effective blade that's accessible in a moment's notice.

Available with either a plain or partially serrated blade edge, and yielding an overall length of 8.5", the Ontario Knife Company XM Strike Fighter features an outside quick release button and secondary safety lock — to ensure this rugged folding combat knife is ready when you need it and stays concealed when you don't. The .55" thick 6061-T6 aluminum handle is extremely low profile, housing a 3.75" long / .125" thick blade, and comes equipped with a convenient pocket clip so it is conveniently concealed in a pocket, boot or belt. The black anodized aluminum handle features milled grooves to improve grip and the blade's fuller keeps the knife's overall weight at a mere 4.5 ounces — resulting in an extremely lightweight, low profile and useful knife.

Since 1942, the Ontario Knife Company of Franklinville, NY has been a major knife supplier to the U.S. Armed Forces. Its military supply roots go deep into its history, as Ontario began supplying the U.S. Military with its famous 18-inch Machetes during World War II. Since then, Ontario Knife Company has consistently developed new designs utilizing cutting-edge technology, materials and manufacturing techniques that remain at the forefront of the hunting, outdoor, police, tactical and military industries worldwide.
