ONTARIO KNIFE COMPANY® — LEADING THE INDUSTRY IN INNOVATION AND CUTTING-EDGE TECHNOLOGY FOR MORE THAN 120 YEARS

In 1889, Ontario Knife Company® of Franklinville, NY began handcrafting quality cutlery that would eventually build a reputation and legacy of uncompromised workmanship for decades to come. And now, more than 120 years later, the well-known company continues to make its mark as a world leader in the development of high-quality, American-made knife designs that have become standard issue with the U.S. Armed Forces, as well as become immensely popular with the outdoor, agriculture and culinary markets.

Ontario's military supply roots go deep into its history, as the company has been supplying quality cutlery to the U.S. Military since WWII, beginning with its famous 18 inch Machete. Today, the company consistently develops new knife designs that allow military personnel to have the products they need in order to get their jobs done both in and out of the battlefield. Ontario's well-recognized military products include the M9 Bayonet, the M7 Bayonet, the Marine Corps OKC 3S Bayonet, the Pilots Survival Knife, the ASEK Survival Knife System used in the Air Warrior Equipment System, the Marine Corps Combat Knife, the Mark III Model O Navy Knife, the 18" Military Machete, the SP16 Spax, and the OKC Rescue Tool.

Over the years, Ontario has received numerous awards and recognitions for their superb performance and commitment to the U.S. Military including: the 2007 Recognition for Excellence Award – Gold Level, presented by the Defense Supply Center Columbus (4 years in a row); the 2006 Materiel Readiness Award presented by the Army Aviation Association of America (AAAA); and the 2006 Innovative Business Performer of the Year, presented by the Defense Logistics Agency (DLA).

This same remarkable quality and functionality used for our soldiers abroad is also offered to civilian enthusiasts from outdoor adventurers to culinary experts through the company's wide range of product lines such as its legendary Old Hickory® Kitchen Cutlery, its Industrial and Agricultural Products, and its Sci-Med Scientific Tools and Instruments.

Ontario Knife Company is a U.S. owned and operated organization that continually stays on the forefront of knife designs and cutting-edge technology. In addition to being a major supplier to the U.S. Government, Ontario Knife teams with a nationwide network of distributors/dealers to market its products to many diverse consumer and niche markets. Worldwide sales activity encompasses more than 28 countries, and continues to grow.
