HAWKE® OPTICS ADDS NEW 2-7X32 VANTAGE IR SCOPE

The Newest Addition to the Vantage IR Scope Lineup is a Compact Powerhouse of Economical Accuracy

Hawke® Optics, a world leader in high quality sporting optics with outstanding performance in the field at amazing value to consumers, brings a new riflescope model to its value-packed Vantage IR lineup – the 2-7x32 IR. If you're looking for a great, compact scope to mount on top of your rifle that doesn't cost an arm and a leg, this is it.

There are a lot of reasons to go with a 2-7 power scope. As with most of Hawke's 107 riflescopes, this new model is all caliber rated. It is a quick handling scope that gets you on target fast and is great for those close in shots, but it has the clarity and magnification for those longer shots in the field or on the range.

The Vantage IR 2-7x32 is built on a one-inch, mono-tube frame and has 11-layer, fully multi-coated optics with outstanding clarity. It is nitrogen purged to be water-, shock- and fog proof. The scope has Hawke's MIL-DOT glass-etched reticle with five levels of adjustable red and green illumination with a rheostat on saddle, or you can turn it off for an all-black reticle. This scope has capped, low-profile turrets with ¼ MOA adjustment. Get on target quickly with the fast focus eyepiece and high torque zoom ring. Lens covers and a battery are included. These scopes are worry free thanks to the Hawke No-Fault Lifetime Warranty.

About Hawke

#VISIONACCOMPLISHED. Hawke is a worldwide market leader at the forefront of optical performance with class-leading innovation and design offering a complete line of sport optics from rifle, crossbow, shotgun and air gun scopes to binoculars, spotting scopes and accessories.
