YOUNGSTOWN GLOVE COMPANY® INTRODUCES WOMEN'S GARDEN GLOVE SERIES Glove Lends All the Toughness the Company is Renown For but Designed Specifically For Women's Hands

Attention ladies: Been looking for a “real” glove that’s tough, durable *and* will fit your hands? Wish granted. Youngstown Glove Company®, the company that manufactures the world’s most durable performance work gloves has launched the Women’s Garden Series™. Appropriate for digging, sawing and hauling away just about anything, the new glove line is built as much for durability as it is for dexterity making it ideal for rigorous yardwork, DIY projects and more.

Youngstown knows women perform hard work just like men do. They also know their hands are built differently than a man’s. Because of this the new Youngstown Women’s Garden Glove is form-fit to the shape of a woman’s hand with longer fingers and a more slender palm. The ergonomic design allows for exceptional comfort and hand support all with the robust, technologically advanced features Youngstown is known for.

Protection is the name of the game with every Youngstown glove and the Women’s Garden Glove is no exception. The glove features a one-piece back-of-hand made of nylon with a moisture wicking outer layer. The glove also has built-in internal knuckle fortification as well as reinforced fingertips for nail protection. Padding in the palm helps to dampen vibration and provides for additional defense when gripping sharp or splintering objects. Soft synthetic suede on the palm won’t shrink or harden after use and allows for a firm grip.

While protection is pinnacle, functionality rules when it comes to the Youngstown Women’s Garden Glove. This means the glove was designed and then lab and field-tested to ensure hands are not constricted allowing the wearer ultimate flexibility so everything from weeding to grasping power tools tightly can be accomplished all with one glove. The glove also has a terry cloth thumb for wiping sweat and debris and a neoprene cuff which gives additional support. A special wrist gusset has also been integrated into the glove to block out dirt and debris.

The Youngstown Women’s Garden Glove is offered in pink or burgundy and is available in sizes small through large. The glove is also conveniently machine washable.

Youngstown Glove Company manufactures the world’s most durable performance work gloves. Founded in 2002, the company has been unwavering in their commitment to quality, innovation and customer satisfaction. Offering more than 30 performance work glove styles available in sizes small through XX large, the company strives to

— *Continued on Reverse* —

exceed the demanding needs of professional workers. Every Youngstown style developed endures extensive testing – both in the laboratory and in the field – prior to being slipped onto customer hands. Thorough testing, proven patterns, innovative materials and meticulous quality control are all hallmarks of a company with a simple goal: to design the best working gloves you've ever owned.
