## **INTRODUCING THE NEW FIELDLINE® PRO SERIES HUNTER'S DAYPACK™** **New Design Packed With Innovative Features That Allow Hunters To Pack Smart**

For those of us looking to spend a day in the field without toting a weeks worth of gear, the new Fieldline® Pro Series Hunter's Daypack™ fits the bill perfectly. Lightweight to carry, yet heavy-duty in function and comfort, this quality new daypack will keep all of your important gear safe, and easily accessible for when you need it most.

The hunter-friendly features begin with an extra large main compartment (measuring 18.5"W x 12.6"H x 7.5"D), ready for you to pack in everything needed for the day's excursion from clothing to rangefinders to water purifiers. A roomy secondary compartment complete with organizer makes stashing smaller items like calls, scents and cell phones a snap, and accessing them later even easier. And because safety of your gear is always a priority for Fieldline, they've designed the new Pro Series Hunter's Daypack to include a Gear-Lock Modular Locking System with multiple gear lock attachment points – ensuring your gear stays put through even the roughest treks in the woods.

For even more organization and storage, the new Fieldline Pro Series Hunter's Daypack is equipped with both top and lower front accessory pockets with zipper closures. And these aren't just any zippers, they're designed to be incredibly silent, an important feature for hunters looking to remain undetected in the field. Plus, this handy pack will help you stay well hydrated throughout the day with a 2-liter hydration compatible pouch (reservoir sold separately) and elastic mesh pouches perfect for housing 20oz. water bottles.

Of course, the coolest pack features on the planet mean nothing if it's not a comfortable carry. That's why Fieldline has incorporated innovative components that provide increased support and comfort for the wearer including side compression straps to balance the weight and a yoked shoulder strap system with sternum slider for easy adjustment to individual torso shapes. Also adding to the comfort and function of this pack is a 1-inch waist belt and a deluxe padded back.

Made from heavy-duty water resistant fabric, the Fieldline Pro Series Hunter's Daypack is available in either Mossy Oak Infinity or Realtree® AP™ camouflage to help hunters blend into any environment.

To learn more about Fieldline's new Pro Series Hunter's Daypack or any of the company's rugged hunting gear and accessories, contact Fieldline at 1919 Vineburn Avenue, Los Angeles, CA 90032 92390 • Telephone: (800) 438-3353 Or visit online at <http://www.fieldline.com>.
