ACME TACKLE'S KEEPER KIT™ IS ALL LURE FISHERMEN NEED FOR ULTRALIGHT TROUT AND PANFISH ACTION

Proven Acme Spoons Selected For All-Around Angling Success

Acme Tackle Company has brought together six of its most popular metal spoons for trout and panfish anglers in its Acme Keeper Kit™. No rainbow, brown, brookie, bluegill or crappie is safe from anglers armed with this special selection of Acme spoons in proven sizes and colors.

Acme's Keeper Kit includes a 1/8-oz. Acme Little Cleo®, a 1/8-oz. Acme Phoebe®, a 1/8-oz. Acme Fiord® Spoon, a 1/8-oz. Acme Kamlooper® and two Acme Kastmaster® spoons — 1/8-oz. and 1/12-oz. This selection is ideal for targeting trout and panfish with ultralight tackle, giving anglers the versatility to match local forage and conditions on any body of water.

These lures were selected specifically by the experts at Acme Tackle for their versatility and proven fish catching capabilities. Acme's Little Cleo features a full-bodied profile that imparts a slow wiggle on the retrieve and gives the illusion of a three-dimensional baitfish. Perhaps no metal lure is better known than Acme's venerable Kastmaster spoon, and the Keeper Kit provides two of these proven fish catchers. The included 1/12-oz. Kastmaster is perfect for pond-loving panfish or trout in small mountain streams, while the larger 1/8-oz. Kastmaster lets anglers cast farther and fish deeper.

Acme's Fiord Spoon features an elongated, slender profile that helps it sink fast and swim with a frantic action that triggers strikes from reluctant fish. Acme's Phoebe Spoon features a uniquely curved body shape with deep cut fins, scales and fins for a realistic baitfish appearance. The Acme Kamlooper Spoon is specially designed to run deep on the troll or retrieve, to reach where the big boys live and feed.

Every lure in Acme's Keeper Kit is built with the finest attention to detail, including stainless steel split rings and jewel-quality plated or baked-on enamel finishes. These premium quality spoons are built to keep their fish-catching action and lifelike colors, season after season.

For more information about the new Acme Keeper Kit — or Acme's full line of proven metal fishing lures for fresh or salt water angling — contact Acme Tackle Co. at 69 Bucklin St., Providence, RI 02907 • Telephone: (401) 331-6437 • Or visit online at: www.acmetackle.com.
