OLD-WORLD STYLE COMES ALONG WITH THE OLD HICKORY HUNTING KNIFE FROM ONTARIO KNIFE COMPANY®

OKC® Brings Classic Old School Artistry and Quality in a Durable, Multi-Purpose Knife from Old Hickory Line

Ontario Knife Company® (OKC®), the award-winning cutlery maker with over 130 years of experience and heritage, adds a rugged hunting knife design to its revered Old Hickory product line that was first introduced in 1924. The Old Hickory Hunting Knife lives up to the reputation and design that has made these knives favorites for decades.

Like taking a step back in time, the Old Hickory Hunting Knife has the classic, remarkably-crafted hardwood handle that is secured with brass compression rivets. The 5.5-inch blade is constructed of high-carbon steel, which is capable of retaining an edge better than many stainless steel knives and it has a hardness rating of 55-57 HRC. OKC still employs manufacturing techniques used over 90 years ago and integrates them with state-of-the-art practices and facilities.

“If you went into your grandparents’ or even great grandparents’ kitchens, pulled a knife out of the drawer and held it in your hand – that’s what an Old Hickory knife of today looks and feels like,” said Andrew Yates, Vice President of Sales & Marketing. “That knife may even be an Old Hickory blade. We wanted to add a hunting-style blade to a series that is already popular and trusted among outdoorsmen. The Old Hickory Hunting Knife is a perfect all-purpose blade that will last. It’s a classic knife that will last for generations.”

The Old Hickory Hunting Knife is proudly backed by a lifetime warranty and **Made in the USA**.

Founded in 1889, the Ontario Knife Company® is an award-winning knife, cutlery, and tool manufacturer operating out of Upstate New York for over 125 years. OKC® produces a wide range of tools, including cutlery and kitchenware, hunting and fishing knives, machetes, survival and rescue equipment, science and medical tools, and tactical knives. OKC has a long tradition of building knives and tools for the U.S. military, producing high quality equipment that has seen continuous service since WWII. In addition to being a major supplier to the U.S. Armed Forces, OKC leverages a network of distributors, dealers, and major commercial retailers to sell its products nationwide and internationally to over 35 countries. OKC’s custom manufacturing division Jericho® Tool, advances capabilities including a broad-spectrum of injection molding, tool and die, and machining operations to provide white label and OEM manufacturing services for consumer and industrial goods. Collectively OKC’s product lines and manufacturing services reach the house wares, sporting goods, tactical, security, law enforcement & first responders, education, science & medical, and industrial & agricultural industries.
