## **NEW PRO SERIES KODIAK DAY PACK™ FROM FIELDLINE® The Backpack You've Been Waiting For to Meet All of Your Hunting Needs**

A day in the woods can be serious business so it is essential you have all your equipment ready at hand. Real outdoorsmen need professional grade gear, and that's when they reach for the new Fieldline Pro Series Kodiak Day Pack™. Never before has a backpack of this caliber been so affordable. A killer price combined with a host of hunter-friendly features make the new Fieldline Kodiak the ideal pack for all of your hunting needs.

The new Fieldline Pro Series Kodiak Day Pack measures 17.7in x 13.3in x 6.3in. Its roomy main compartment is big enough for your essential larger gear such as game bags and spare clothing while the various outer pockets will organize your smaller items like tags and game calls.

The Fieldline Kodiak Day Pack sports features not found in other more pricey hunting packs like removable binocular straps, a stowable rifle carrier and multiple lashing straps for securing even more gear. You would typically have to pay hundreds of dollars to find a pack with all of this and it probably still wouldn't be built as tough as the Fieldline Kodiak Day Pack. The Kodiak is even compatible with a 2 liter hydration reservoir (not included). The pack also features paracord style zipper pulls to make access quick and quiet when wearing gloves or opening the pack in the dark just before first light.

When that trophy is only minutes away you don't want to reveal yourself by making noise. Fieldline had this in mind when designing the Pro Series and the Kodiak Day Pack will really help you stay quiet. In fact, the pack's soft outer shell won't give you away even when you accidentally rub against that surprise tree branch.

The new Fieldline Pro Series Kodiak Day Pack will hold more gear than most of us need but that won't stop us from filling it. Fieldline designers knew this and made sure the Kodiak Day Pack was outfitted with top quality shoulder straps. They feature extra padding in a yoke design that truly helps distribute the weight across your back. To better stabilize the load on those long hikes, the Kodiak Day Pack also features a chest strap and a padded waist belt with a quick release buckle. If you want to pack heavy and go deep, this is the pack for you.

Fieldline works and plays as hard as you, and understands the rigors hunters place on their gear. Fieldline offers a Lifetime Warranty so you can take the Fieldline Pro Series Kodiak Day Pack to the woods with confidence. Fieldline is committed to providing high-quality packs, duffels and lifestyle accessories that are fully guaranteed against defects in workmanship and materials for the life of the product.
