## **SUPERIOR STEALTH AND ULTIMATE UTILITY ARE THE BUZZWORDS SURROUNDING THE ONTARIO KNIFE COMPANY®'S RANGER SILVER SKELETON AND RANGER NECK KNIFE**

### **Compact Fixed-Blade Knives for Tactical Operators and Outdoor Enthusiasts Alike**

A knife is one of the most personal items an individual can possess. A nonslip handle on a hunting knife tells as much about the hunter as does the well-worn, yet shaving-sharp blade of a bone-clad pocket knife. There are times, however, when the *unseen knife* tells the most about an individual. Ontario Knife Company's Ranger Silver Skeleton and Ranger Neck Knives were designed with the tactical and outdoor enthusiast markets in mind, allowing the user to carry the knives concealed without running afoul of the law.

"In designing the Ranger Neck Knife and Ranger Silver Skeleton, my thought was to build a knife that could be legally carried concealed in most states," said knife designer Justin Gingrich (please check with all local, state and federal laws). "I wanted a lightweight blade that could be worn close to the body and would be able to handle everyday tasks whether around the house or in the woods."

The Ontario Knife Ranger Silver Skeleton features 440C stainless steel construction and measures an overall length of 6 5/8 inches with 2 11/16 inches of drop-point-inspired blade — ideal for hunting and tactical applications. The Kydex sheath dangles securely against the body thanks to its paracord tether, but it can also be slid into a pocket or worn on a belt as the user's situation and preference dictate. The Ontario Knife Ranger Neck Knife has many of the same great features of the Silver Skeleton, including 440C stainless construction and the stout 5/32-inch-thick blade. Overall, the Ranger Neck Knife tapers 6 15/16 inches with a 2 1/2-inch bird/trout-point design that serves the defined needs of tactical operators and sportsmen alike. As with all Ontario Knife products, the Ranger Neck Knife and Ranger Silver Skeleton are proudly made in the USA and come with a limited lifetime warranty.

Founded in 1889, The Ontario Knife Company is a U.S. owned and operated organization that continually stays in the forefront of knife designs and cutting-edge technology. Ontario's military supply roots go deep into its history, as the company has been supplying quality cutlery to the U.S. military since WWI, beginning with its famous 18-inch Machete. Today, the company consistently develops new knife designs that allow military personnel to have the products they need in order to get their jobs done both on and off the battlefield. Ontario Knife is also especially proud of being selected as the sole provider of the United States Marine Corps OKC3S Multi-purpose Bayonet System and the Model 4 Rescue Strap Cutter. In addition to being a major supplier to the U.S. Armed Forces, Ontario Knife teams with a nationwide network of distributors/dealers to market its products to many diverse consumer and

niche markets including the tactical/military, hunting, outdoors and cutlery industries. Worldwide sales activity encompasses more than 28 countries and continues to grow.

For more information about The Ontario Knife Company and its industry-leading line of advanced knives, machetes, edged products and specialty tools, contact The Ontario Knife Company at P.O. Box 145-26 Empire Street · Franklinville, NY 14737 · Telephone (716) 676-5527 · Or visit <http://www.ontarioknife.com/>.
