KRYPTEK™ CREATES MUST-HAVE VIDAR SCOUT SOFTSHELL VEST™ FOR EXTREME HUNTERS

Product Design and Company Ethos Guided by Military Experience

Kryptek™, the company that seamlessly meshes military knowledge and hunting needs, is proud to introduce the latest addition to its popular Mountain Assault Series, the Vidar Scout Softshell Vest™. Named after Vidar, the Norse god of the hunt, the vest pays tribute to its namesake offering strength, quiet swiftness and ruggedness.

Designed to be silent and comfortable, the vest offers maximum thermo-regulation control. Simply put, the wearer stays warm, mobile and field ready. Constructed from polyester high gauge interlock with DWR 2L bonded polyester fleece backing, the vest has waterproof zippers, a water-resistant exterior, and has been constructed with bonded laminate protection in order to seal heat in. Quick-cooling ventilation in key areas keep body temperature where it needs to be.

A hunter's staple, the vest can be layered under a jacket to create greater warmth, or during warmer weather paired with the Kryptek Alaios Shirt to deliver adequate ventilation and core warmth protection. The Kryptek Vidar Scout Softshell Vest is part of a technical hunting clothing line that has military apparel attributes imbedded within it.

"We've poured our combat experience and military survival expertise into this line of apparel in order to make it the very best, highly technical adventure clothing available," said Kryptek co-founder Josh Cleghorn, who alone has 15 years of military experience under his belt. "This vest has been rigorously field-tested and we believe hunters will appreciate the application, functionality and quality when on their own excursion."

The Kryptek Vidar Scout Softshell Vest features the Mothwing Mountain Mimicry® camouflage pattern which is based on the unique designs of the Lepidoptera Noctuidae moth and blends into almost any environment. It offers ample pockets for storage of everything from a pocket knife and extra shells to handwarmers and maps.

The Kryptek Vidar Scout Softshell Vest is available in sizes medium through 2XL.

About Kryptek

Kryptek takes what works in combat and hones it for hunting and other outdoor adventure use. The company provides customized performance based apparel that is specifically tailored to the environment with the goal of meeting or exceeding the performance expectations of the user and consistently delivering comfort, function and durability. More than just clothing, the company's designers accomplish this by integrating tactical gear concepts and evolving this technology into its technical hunting line. The veteran-owned company meticulously field-tests each and every product throughout its development in order to offer a superior selection of hunting apparel.
