## HAWKE® REVAMPS WHAT YOU THINK YOU KNOW ABOUT FIBER OPTICS WHEN IT COMES TO FIBER OPTIC ILLUMINATION, HAWKE'S UNPRECEDENTED FIBER DOT CHANGES THE GAME

[Hawke® Optics](#), a worldwide leader in quality sporting optics that perform outstanding in the field while maintaining optimum value for the consumer, offers a collective lineup of Vantage Riflescopes, featuring their H2 Optics. New for 2023, Hawke is proud to now offer in this extensive range for the first time ever an Illuminated Fiber Optic Dot Reticle. Forget everything you think you know about fiber optic illumination. Hawke has changed the game with their new Fiber Dot riflescopes!

The all-new Vantage 30 WA FD IR models bring Fiber Dot reticles to Hawke Optics for the first time ever! These unprecedented Fiber Dot reticles give an intensely bright, clean, crisp, red illuminated center dot that really can be called daylight bright. The red illumination can be controlled with an 11-stage brightness control, giving you the finest dot in both low light and bright daytime conditions. The removable zoom magnification throw lever allows you to make rapid and effortless zoom magnification adjustments, ideal for when speed is essential, or when wearing gloves.

The classic L4A Dot reticle gives a clean and uninterrupted view of your target. Combined with the fiber optic illumination, these scopes are optimal for both low light conditions and bright daylight! With this reticle, you will have an extremely crisp, clean reticle dot. The new for 2023 Vantage 30 WA Fiber Dot Illuminated Riflescopes are offered in four configurations; 1-4x24, 1-8x24, 2.5-10x50, and 3-12x56, all with Hawke's L4A Fiber Dot reticle. They are built with 11 layers of Fully Multi-Coated Lenses for extreme clarity and brightness.

Developed on the foundation of the outstanding Vantage rifle scope line, these new scopes are built on a 30mm monotube chassis with a wide-angle field of view, providing tremendous light transmission. The all-new Fiber Dot (FD) illuminated glass etched reticle riflescopes are a must in your collection. The Vantage 30 WA FD IR models feature capped turrets, a removable zoom magnification throw lever, and a high torque zoom ring. All Hawke riflescopes, including the new Fiber Dots, are nitrogen-purged, shock-, water-, and fog-proof. They are all caliber rated, so you don't have to second guess what rifle caliber you can use it on. Add on all models retail under \$550 and come with Hawke's No-Fault Lifetime Warranty, they can't be beat. You can't find the clarity, quality, accuracy, and durability that Hawke offers in these scopes at a better price! Hawke has redesigned and perfected fiber optics to the next level.

### *About Hawke*

#VISIONACCOMPLISHED. Hawke is a worldwide market leader at the forefront of optical performance with class-leading innovation and design offering a complete line of sport optics from rifle, crossbow, shotgun and air gun scopes to binoculars, spotting scopes and accessories.
