ONTARIO KNIFE COMPANY® RELEASES DOZIER ARROW KNIFE FOR 2016

OKC® Partners with Veteran Knife Designer Bob Dozier on New Tactical Folding Knife

Ontario Knife Company® (OKC) is proud to announce its partnership with famed knife maker Bob Dozier via the introduction of the Dozier Arrow folder. Featuring tried and true knife materials, precision engineering, and Bob Dozier's iconic design; the Dozier Arrow is a world-class every-day-carry.

Dozier has been a leading knife designer for over five decades with a reputation for making high quality products. Dozier's knife designs have been primarily distinguished as no nonsense, hunting, tactical, and utility knives without frills or gimmicks. Superior quality, price, and function — what else could you want in a folder?

The OKC Dozier Arrow has an overall length of 8.19 inches (20.8 cm) open with 3.63 inches (9.21 cm) of D2 steel blade. The spear-point blade measures .125-inch thickness and boasts a hardness rating of 56-58 HRC. All told, that means the OKC Dozier Arrow is designed to be large enough for high functionality without being cumbersome and tough enough to take and hold an edge.

OKC's Dozier Arrow features premium G-10 handles, a steel liner lock, and a narrow profile for ease of carry. The G-10 handle material is a fiberglass-based laminate that is both lightweight and durable, machined to display Bob Dozier's iconic arrow and textured to provide for superior grip. The OKC Dozier Arrow is offered in either a stonewashed finish (MSRP \$78.95) or with a black powder coated blade (MSRP \$81.50).

Founded in 1889, the Ontario Knife Company® is an award-winning knife, cutlery, and tool manufacturer operating out of Upstate New York for over 125 years. OKC® produces a wide range of tools, including cutlery and kitchenware, hunting and fishing knives, machetes, survival and rescue equipment, science and medical tools, and tactical knives. OKC has a long tradition of building knives and tools for the U.S. military, producing high quality equipment that has seen continuous service since WWII. In addition to being a major supplier to the U.S. Armed Forces, OKC leverages a network of distributors, dealers, and major commercial retailers to sell its products nationwide and internationally to over 35 countries. OKC's custom manufacturing division Jericho Tool®, advances capabilities including a broad-spectrum of injection molding, tool and die, and machining operations to provide white label and OEM manufacturing services for consumer and industrial goods. Collectively OKC's product lines and manufacturing services reach the house wares, sporting goods, tactical, security, law enforcement & first responders, education, science & medical, and industrial & agricultural industries.
