ACME® KASTMASTER® WITH TUBE TAIL COMBINES FISH-CATCHING ACTION AND FLASH WITH THE ADDED ATTRACTION OF SURGICAL TUBE TRAILER

Serious saltwater anglers know the effectiveness of tube lures for hungry predators like striped bass, barracuda, bluefish, bonito, false albacore, weakfish and more. And of course, the castability, fish-catching action and flash of the venerable Acme® Kastmaster® are legendary among lure-fishing aficionados.

The only thing better, perhaps, would be a lure that combines both of these in one deadly weapon. Introducing Acme's line of saltwater Kastmaster slab-sided spoons featuring colorful tube tails and long-shank single hooks.

Acme offers this "one-two punch" in 1oz., 1-1/2 oz., 2 oz., 3 oz. and 4 oz. sizes, covering a range of bay, inshore and offshore fishing applications. Each lure features a jewel-quality Chrome plated body for maximum underwater flash, together with a choice of surgical tube trailer in Florescent Red, Florescent Yellow, Florescent Green and White.

Inside each tube is a needle sharp long shank hook intentionally curved to create an erratic, dancing tube action predators can't resist. Combined with the Kastmaster's dynamic swimming action when cast or trolled, this spoon-and-tail combination provides a large, highly active target for gamefish to hone in on. The durable Latex rubber tube is attached to the spoon with a quality Rosco swivel and sturdy stainless steel split ring, ensuring maximum tail action and preventing even the most aggressive fish from twisting free during the fight.

This versatile lure is a must have for surf casters and boat anglers looking to entice fish busting on the surface or feeding on bait suspended in the water column. Depending on the quarry, anglers can cast-and-retrieve this lure at different speeds, or troll it to cover more water and find schools of hungry gamefish. The fast-sinking Kastmaster and the added action and color of the dancing tube tail also make this unique lure an ideal choice when vertical jigging for cod, Pollock and other bottom-hugging species.

To learn more about the Kastmaster with Tube Tail, or any of Acme's full line of proven metal lures for fresh and saltwater gamefish— contact Acme Tackle Co. at 69 Bucklin St., Providence, RI 02907 • Telephone: (401) 331-6437 • Or visit online at: www.acmetackle.com.
