STAY NIMBLE AND PROTECTED WITH YOUNGSTOWN® CARPENTER PLUS™ GLOVE

New All Purpose Form Fit Glove Lends True Fingertip Dexterity

Don't dig around hopelessly for nails in your tool pouch like a bear pawing clumsily in nooks and crannies for honey – put on the new Youngstown® Carpenter Plus™ glove which allows for extreme dexterity all while giving you the protection you need to get the job done. The performance work glove made of the highest quality manmade materials offers true fingertip agility built into the same superior glove design workmen and women have come to know and trust.

No need for the tedious business of repeatedly taking your glove on and off, the Youngstown Carpenter Plus glove features a shortened index, middle and thumb on each hand allowing for easy handling of small nails, screws and wires. The glove makes tasks such as tying knots and intricate work a snap – while a protected palm, ring and pinkie still allow for gripping and carrying lumber, molding or drywall.

Built to last like all Youngstown gloves, the Carpenter Plus glove is an abrasion resistant, reinforced glove constructed to take a beating. The palm side of the glove starts with a rugged synthetic base layer. Non-slip reinforcement is then stitched onto that base layer in all the vital places including on the palm, fingers and thumb for enhanced grip, protection and extreme durability. The breathable back of hand wicks away sweat and moisture keeping your hands cool and dry.

Not missing any detail, the Carpenter Plus glove also has a terry cloth brow wipe for dabbing away sweat and debris. Finally, the glove design is completed with a streamlined cuff and closure, which does not get in the way during intricate work. Both comfortable and supportive, the neoprene cuff with a Velcro closure also works to lock out dirt and dust.

The Youngstown Carpenter Plus glove is machine washable and available in sizes small through XX large.

Youngstown Glove Company manufactures the world's most durable performance work gloves. Founded in 2002, the company has been unwavering in their commitment to quality, innovation and customer satisfaction. Offering more than 30 performance work glove styles available in sizes small through XX large, the company strives to exceed the demanding needs of professional workers. Every Youngstown style developed endures extensive testing – both in the laboratory and in the field – prior to being slipped onto customer hands. Thorough testing, proven patterns, innovative materials and meticulous quality control are all hallmarks of a company with a simple goal: to design the best working gloves you've ever owned.
