## **THE NEW-FOR-2013 ONTARIO KNIFE COMPANY® DECIMA™ Versatility and Functionality Define the Newest Knife in the Fortune Series**

Selecting a knife for both personal defense and use afield is not easy. Hunters want a tool; those looking to defend themselves want a weapon. The Ontario Knife Company® has created the perfect blend of both with Decima™, the newest member of the Fortune Series of tactical knives.

The Ontario Knife Company Decima features a 3-inch, grey powder-coated drop point blade made of 420HC steel. As blade materials go, this is a hard, strong carbon/stainless blend that holds its edge extremely well and is easy to resharpen after extended use. The steel is inherently corrosion resistant, and when you add the fact that the blade is powder coated, it creates the ultimate combination for use in the most abusive of environments.

The handle is made of G10, a fiberglass-based laminate that is known for its rugged durability and light weight. Checkering has been added to the handle to ensure a solid grip, whether you are field dressing an animal, using it as a survival tool or keeping attackers at bay. For added security in hand, Ontario Knife Company designed the grip with an indentation for your forefinger and a ribbed, no slip thumb press when pushing the blade with extreme pressure. All total, the Ontario Knife Company Decima checks in at a hair over 8 inches long.

The Ontario Knife Company Decima comes with a fitted plastic sheath featuring an adjustable belt clip. With sheath, the total package weighs in at a scant 9 ounces. So, whether you wear it or carry it in your hunting pack, you will not notice it is there until you need it.

Founded in 1889, The Ontario Knife Company is a U.S. owned and operated organization that continually stays on the forefront of knife designs and cutting-edge technology. Ontario's military supply roots go deep into its history, as the company has been supplying quality cutlery to the U.S. Military since WWII. Today, the company consistently develops new knife designs that allow military personnel to have the products they need in order to get their jobs done both on and off of the battlefield. Ontario Knife is also especially proud of being selected as the sole provider of the United States Marine Corps OKC3S Multi-purpose Bayonet System and the Model 4 Rescue Strap Cutter. In addition to being a major supplier to the U.S. Armed Forces, Ontario Knife teams with a nationwide network of distributors/dealers to market its products to many diverse consumer and niche markets including the tactical/military, hunting, outdoors, law enforcement and cutlery industries. Worldwide sales activity encompasses more than 46 countries and continues to grow.

For more information about Ontario Knife Company and its industry-leading line of advanced knives, machetes, edged products and specialty tools, contact Ontario Knife Company at P.O. Box 145-26 Empire Street · Franklinville, NY 14737 · Telephone (716) 676-5527 · Or visit [www.ontarioknife.com](http://www.ontarioknife.com). The Ontario Knife Company is a subsidiary of publicly traded Servotronics, Inc. (listed as NYSE MKT - SVT).
