## DSG OUTERWEAR INTRODUCES NEW BEXLEY 2.0 RIPSTOP ULTRA-LIGHTWEIGHT APPAREL SET IN REALTREE EDGE®

### Company Takes Function and Features to the Next Level with New Tech Pullover and Pants for Women Hunters

**Madison, WI** – Whether you're hunting spring gobblers or gearing up for the early season, DSG Outerwear has you covered for the best fitting and highest functioning apparel available for women of all sizes and shapes. The company's latest introduction of technical apparel follows this tradition and is the perfect fusion of great design, superior materials and quality: the new Bexley 2.0 Ripstop Ultra-Lightweight Tech Shirt and Hunting Pants in Realtree Edge® camo.

The designers at DSG poured over the details of the new Bexley 2.0 so every element works to be as efficient and functional as possible. Constructed with breathable, ultra-lightweight ripstop and moisture wicking/quick dry fabric, both the Bexley 2.0 Ripstop Ultra-Lightweight Tech Shirt and Pants are designed to keep you cool for when the hunt heats up, while allowing you to remain completely covered. This same material is treated with DWR to shed water, keeping you dry in light rain. Both shirt and pants are available in the Realtree Edge camouflage pattern, which will keep you well blended with your surroundings at both close range as well as from a distance. Both pullover and pants also incorporate DSG's signature aqua blue stitching accents for a subtle flare of DSG style.

The Bexley 2.0 Ripstop Ultra-Lightweight Tech Shirt features an attached hood and soft elastic binding to keep your head comfortably covered. Comfort length sleeves with thumbholes keep hands protected while also making layering a breeze. A pullover length center front zipper makes changing in and out of the shirt a simple task while a concealed zipper in the upper chest pocket offers extra roomy storage to house smaller gear. A handy front pouch provides even more storage for additional gear as well as keeps hands warm.

Couple the DSG Bexley 2.0 Ripstop Ultra-Lightweight Tech Shirt with its counterpart – the new DSG Bexley 2.0 Ripstop Ultra-Lightweight Hunting Pants. These pants were built for comfort and durability. They feature darts at the knees for enhanced mobility, making every movement from running to crawling that much more comfortable. Functional pants means lots of pockets to house your essentials, and these pants are outfitted with all you need and more including two jeans-style pockets in the front, a roomy back pocket at the rear, and a cargo-style pocket with snap closure on the thigh. An elastic waistband allows for added stretch with wide belt loops to accommodate a variety of sizes. Adjustable inseams allow for manual adjusting from 33.5- to 29.5-inches, so wearers can easily find the perfect fit.

The new Bexley 2.0 Ripstop Ultra-Lightweight Shirt and Hunting Pant Set is available in sizes starting at XXS to accommodate younger 'tween' hunters and goes up to 5XL. The set can be found at DSG Outerwear dealers and [online](#).

#### *About DSG Outerwear*

DSG Outerwear was conceived in 2010 by Wendy Gavinski after many years of personal frustration with the limited selection of women's outerwear for active outdoor lifestyles. The goal – create a line of clothing and gear that meets the need for a functional and feminine fit, including plus sizes. The company produces a wide range of clothing options for hunting, ice fishing and snowmobiling. DSG Outerwear uses the highest quality materials and components built by designers and production specialists with over 40 years of experience in making quality outerwear. The company produces everything from highly functional performance layering pieces to insulated jackets, bibs, pants footwear and accessories that are perfect for all types of outdoor activities, even in the coldest weather. Women's outerwear designed by women to fit women of all shapes and sizes and built to perform.
