ONTARIO KNIFE COMPANY® INTRODUCES THE NEW-FOR-2013 WYVERN AXE™

A Versatile New Military-Grade Tool That Easily Hacks Through Any Job

Whether you need some firewood for your camp or a utilitarian survival weapon added to your emergency preparation kit, Ontario Knife Company® has engineered a new tool that cuts to the chase — the new Wyvern Axe™. This tool is a powerful rescue/breaching system in the proud and successful lineage of the Ontario Knife SP16 “SPAX”. Proficient during emergency egress situations and to make short work of clearing a line of small trees, debris, and wreckage; this smartly designed, rugged tool provides a level of quality and cutting power that has made Ontario Knife a leading provider of knives and tools to the U.S. military since World War I.

The body of the Ontario Knife Wyvern Axe incorporates an epoxy based black-texture powder coated 5160 alloy steel, purpose-built for toughness, durability, and dependability. It boasts an unwavering overall length of 18.9 inches and an extended cutting surface that spans from the neck to the striking surface. Mindful during unforeseen emergency situations and military operations where every second counts, the 5160 “steel-that-cuts-other-steel” will hold its edge. Hardened alloy, with the prolong durability of the cutting surface, the Ontario Knife Wyvern Axe gets you to the primary objective, faster.

Conventional axes with simple design and a single task personality fall short in comparison. Armed with a multi-surface breaching pick and breaching claw, the Ontario Knife Wyvern Axe is a tool that will answer the call of any situation. At 2 ½ pounds, with a Spec Plus leather Cordura sheath, it's also easy and safe to pack and carry.

From across the sea in unforgiving military conditions, to the rapid response of being first on scene — and even the woods where everyone is huddled around a warm fire — the incredibly rugged, multi-dimensional Ontario Knife Wyvern Axe beckons to be summoned.

Founded in 1889, The Ontario Knife Company is a U.S. owned and operated organization that continually stays on the forefront of knife designs and cutting-edge technology. Ontario's military supply roots go deep into its history, as the company has been supplying quality cutlery to the U.S. Military since WWII. Today, the company consistently develops new knife designs that allow military personnel to have the products they need in order to get their jobs done both on and off of the battlefield. Ontario Knife is also especially proud of being selected as the sole provider of the United States Marine Corps OKC3S Multi-purpose Bayonet System and the Model 4 Rescue Strap Cutter. In addition to being a major supplier to the U.S. Armed Forces, Ontario Knife teams with a nationwide network of distributors/dealers to market its products to many diverse consumer and niche markets including the tactical/military, hunting, outdoors, law enforcement and cutlery industries. Worldwide sales activity encompasses more than 46 countries and continues to grow.

For more information about Ontario Knife Company and its industry-leading line of advanced knives, machetes, edged products and specialty tools, contact Ontario Knife Company at P.O. Box 145-26 Empire Street · Franklinville, NY 14737 · Telephone (716) 676-5527 · Or visit www.ontarioknife.com. The Ontario Knife Company is a subsidiary of publicly traded Servotronics, Inc. (listed as NYSE MKT - SVT).
