START OFF ON TARGET WITH THE HHA™ SPORTS OPTIMIZER CADET BOW SIGHT

The Cadet is the Perfect Bow Sight for Youth and Beginning Archers, as well as Bowfishing Rigs

Wisconsin Rapids, WI – When you have a new archer, you don't want to over complicate things. Learning the muscle control needed to repeatedly be on target is hard enough, you don't need to throw extra pins into the sight picture. HHA Sports, the leaders in single-pin bow sight technology, have developed the perfect, lightweight, single-pin bow sight for youth and beginning archers – the Optimizer Cadet. The compact and lightweight sight is also perfect for bowfishing rigs, too.

The HHA Sports Optimizer Cadet has all of the quality you'd expect from HHA Sports. The windage and elevation adjustments are tool-free, so sighting in is easy. The Cadet is made from CNC-machined aluminum and has fully-protected fiber-optics and weighs in at just under five ounces. The scope has a 1-5/8 inch diameter with a level on the bottom edge and an ultra-bright sight picture. The light weight and simple setup make this a great sight for teaching the right way to shoot. Those same features help make the Cadet a great sight for even the most experienced bowfishing enthusiasts who need to make fast shots on swimming fish under low light.

The HHA Sports Optimizer Cadet comes in both right- and left-hand versions. Like you would expect from HHA Sports, it carries a **100-percent lifetime warranty** and is **Made in the U.S.A.**
