## **PRÓIS® ELEVATION™ SHIRT AND PANTS BEAT THE PANTS – AND SHIRTS – OFF ORDINARY HUNTING GEAR**

### **Avid Female Hunters: This Isn't Your Dad's, Brother's or Husband's Field Apparel**

Hardcore female hunters looking for perfectly fitting and highly functional hunting clothing to weather the most extreme hunts can now hit the target with the new Elevation™ Pants and Elevation™ Shirt from Próis® Hunting & Field Apparel. Part of Próis' Elevation Series layering system, the high-performance shirt and pants provide warmth, concealment, silence and waterproofing, all while fitting the female form 'to a tee.' Or in this case, to the shirt and pants.

The new Próis Elevation Shirt features a hard-working polyester/spandex blend of fabrics with antimicrobial properties and wicking technology, allowing moisture to wick from the skin – key for optimizing thermoregulation during a vigorous hunt. Designed for layering without unnecessary bulk, this advanced and indispensable piece of gear may be worn as a base layer for those frigid, early mornings – or donned alone as the hunt heats up. Seeing to every detail, the new Próis Elevation Shirt comes complete with thumbholes in the cuffline for superior concealment, warmth and additional ease of layering.

An ideal companion for the new Próis Elevation Shirt are the new Próis Elevation Pants. Like all gear from Próis® Hunting & Field Apparel, the new Próis Elevation Pants are rugged, comfortable and thoughtfully designed. But unlike downsized men's gear or upsized children's gear, the new Próis Elevation Pants are created for women, by women.

A new athletic design is sleek, but offers plenty of room in the rear and thighs, with a waistline that sits at the natural waist. Constructed from breathable, waterproof laminate with waterproof zippers that snap down for complete silence, the new Próis Elevation Pants allow huntresses to stay under the radar – and to stay comfortable. Taking comfort and ease of movement to the next level, the new Próis Elevation Pants are lined with a nylon tricot lining system, while a nine-inch boot zip at the cuff line and Cordura scuff plates added to the inside of the cufflines reduce wear during long hikes and offer the ultimate in function and mobility.

Storing your hunting license, trail markers or tags is convenient and easy with a cargo pocket on the right leg and rear pockets with snap-down slider zippers. For ultimate concealment, the new Próis Elevation Shirt and Pants feature the Mothwing Mountain Mimicry® camo pattern, which is based on the unique designs of the Lepidoptera Noctuidae moth and blends naturally into any environment.

Both shirt and pants are available in sizes XS thru XL. Like all Próis Hunting and Field Apparel, they are proudly made in the U.S.A.

For more information about the new Elevation™ Shirt and new Elevation™ Pants from Próis® Hunting & Field Apparel, or to learn more about Próis' innovative line of serious, high-performance huntwear for real women, contact: Próis Hunting and Field Apparel, 28001-B US Highway 50, Gunnison, CO 81230 · (970) 641-3355 · Or visit [www.proishunting.com](http://www.proishunting.com).
