ENJOYING YOUR FAVORITE SUMMER FRUIT JUST GOT EASIER WITH THE WATERMELON KNIFE BY ONTARIO KNIFE COMPANY®

Heavy-Duty Kitchen Knife Makes Short Work of Slicing Large Fruit Rind and Other Arduous Tasks

Every chef knows cutting the likes of watermelon, cantaloupe and honeydew requires skill and the right knife. The Watermelon Knife by Ontario Knife Company® (OKC®) is that must-have tool that boasts both performance and durability. Designed specifically to make easy work of an often awkward undertaking, the knife is beautifully weighted and a practical addition to any home chef's kitchen.

"Ask any chef, nothing is worse than having the wrong knife for a job – our Watermelon Knife was designed for a specific purpose, so you can trust it's there when you need it," said Vice President of Sales & Marketing for OKC Andrew Yates. "And, like all our products, it's been created to be a high-quality, inexpensive knife that will last."

Constructed of high-grade stainless steel, and under rigorous quality-control systems, the OKC Watermelon Knife has a blade length of 12 inches and an overall length of 17 inches, giving it the ability to slice even the largest of watermelons. With an ultra-tough blade hardness of 55-58 HRC, the knife will be sure to perform in superior fashion time after time, and year after year. The knife has an ergonomically molded plastic handle providing for a comfortable but firm grip – an important aspect when handling large and often slippery melon fruit.

Manufactured in Taiwan to OKC's exacting quality standards, the company stands behind its workmanship and materials with the watermelon knife carrying an impressive limited lifetime warranty.

Founded in 1889, the Ontario Knife Company® is an award-winning knife, cutlery, and tool manufacturer operating out of Upstate New York for over 125 years. OKC® produces a wide range of tools, including cutlery and kitchenware, hunting and fishing knives, machetes, survival and rescue equipment, science and medical tools, and tactical knives. OKC has a long tradition of building knives and tools for the U.S. military, producing high quality equipment that has seen continuous service since WWII. In addition to being a major supplier to the U.S. Armed Forces, OKC leverages a network of distributors, dealers, and major commercial retailers to sell its products nationwide and internationally to over 35 countries. OKC's custom manufacturing division Jericho Tool®, advances capabilities including a broad-spectrum of injection molding, tool and die, and machining operations to provide white label and OEM manufacturing services for consumer and industrial goods. Collectively OKC's product lines and manufacturing services reach the house wares, sporting goods, tactical, security, law enforcement & first responders, education, science & medical, and industrial & agricultural industries.

For more information about Ontario Knife Company and its industry-leading line of advanced knives, machetes, edged products and specialty tools, contact Ontario Knife Company at P.O.
