## **ACME® DELUXE PHOEBE® TROUT AND PANFISH KIT A POWERFUL TOOL FOR ULTRALIGHT ANGLERS**

The Phoebe® spoon from Acme® Tackle Co. is one of the world's most unique and effective metal lures for trout and panfish, thanks to a hydrodynamic curved body that creates the illusion of a fat, full-bodied baitfish and delivers a wild swimming action on the troll or retrieve.

Now Acme has packaged a powerful six-pack of 1/8-oz. Phoebes together to help anglers nail trophy trout and panfish, even in tough conditions or on heavily pressured waters. With a Deluxe Phoebe Kit (#KT-30) in his tackle box, the serious ultralight freshwater angler will be ready for action in lakes, streams and ponds from coast to coast.

These Phoebe spoons feature some of Acme's most effective and popular colors for inspiring rainbows, browns, cutthroats and brookies to strike aggressively. Acme's Rainbow Trout and Brown Trout pattern Phoebes imitate trout fry and are often too much for predatory (and cannibalistic) trophy trout to resist. Acme's Frog pattern Phoebe is a proven trout producer in every body of water. This kit also contains Phoebe spoons in Fire Tiger, Chartreuse/Orange and Candy — high-visibility colors that attract attention and spur aggressive bites even in low light conditions, cloudy or stained waters.

In addition to fooling wary trout, these small Phoebe spoons are ideal for tackling large bluegill, redears, crappie and other panfish that feed on minnows, frogs and trout fry.

Each one of these deadly spoons is built with the quality, features and attention to detail that have made Acme a world leader in metal fishing lures for more than 60 years. Phoebe's lifelike fins and deep-cut scales add a sense of realism and are the perfect match for Acme's realistic and durable baked-on enamel finishes. Stainless steel split rings and ultra-sharp treble hooks ensure solid hookups that stay put, even when trophy trout dog it deep or take to the air for an acrobatic display.
