THE TIMBER HAWK® BACKSTRAP WAIST PACK **Perfect For the Agile Hunter Adept at Doing More With Less**

Just the mention of the name, “backstrap” can conjure images that will make any hunter’s or wild game enthusiast’s mouth water. Backstraps are the prime cut, the juiciest and the most desirable part of the animal. The same is true of Timber Hawk’s® [Backstrap](#)™ waist pack in Realtree® APX™ camo. From your first experience, you’ll know it is a prime cut and the most highly desirable choice.

There are times when a hunter simply needs to move, unencumbered, *run-and-gun* style regardless of whether he is trying to get ahead of a gobbler or running down a bugle on the opposing slope. However, mobility and a lean load does not mean leaving essential gear behind. You still need to carry certain navigation or communications gear, an emergency survival kit, game calls, knives for field dressing and perhaps most importantly, plenty of water — and Timber Hawk’s Backstrap will handle it all.

Don’t be fooled by the Timber Hawk Backstrap’s modest size, it has plenty of room to fit all of the essentials including bulky items like lightweight rain gear. All pockets are lined with an ultra-quiet durable twill fabric to protect your gear and keep it quiet. The main compartment is flanked by accessory pockets featuring large loop zipper pulls which are ideal for smaller items that need to be accessed in a hurry such as game calls, rangefinders or ammo.

Secured between the hip belt pockets and the main compartment are dual mesh water bottle holders, which easily accommodate two over-sized water bottles, or you can get creative and use these pockets to stash hats, gloves or a face mask.

The pocket backs and waist belt are constructed using high-density breathable foam padding for enhanced comfort in any weather condition or equipment load. The waist belt is fully adjustable with left and right compression straps to balance your load and customize the fit. Need to carry more gear? You can always enhance the Timber Hawk Backstrap’s function and capabilities by lashing even more gear to the webbed accessory loops.

One look at the Timber Hawk Backstrap is enough to make you salivate, but once you strap it on and feel the comfortable ride first hand, you’ll never be satisfied with anything else.

Timber Hawk offers the absolute best hunting backpack for your hard earned dollar. For more information on the Timber Hawk Backstrap and the rest of the lineup contact Timber Hawk at 1919 Vineburn Avenue, Los Angeles, Calif. 90032 • Telephone: (801) 597-0087 • Or go to <http://www.timberhawk.com>.
