KEEP IT COOL AND MOBILE WITH NEW QUEST 25 QUART BACKPACK BY CANYON COOLERS®

High Performance Cooler Keeps Hands Free on Your Next Fishing Trip

When you need to keep items ice-cold when traveling light, then you'll want the brand new Quest 25-Quart Backpack by Canyon Coolers®. Designed to be as highly functional, durable and state-of-the-art as you'd expect from the renowned company, this backpack will not disappoint. Delivering unsurpassed insulation on your next fishing trip, the Quest will keep you fueled all day with ice-cold refreshments and hands free when traveling to your favorite fishing spot.

Built from white water raft-grade tarpaulin, and constructed with welded seams, the Quest 25-Quart Backpack is made for on-the-water use, and to go just about anywhere. The backpack resists against tears and scratches ensuring it stands strong through years of tossing on and off the kayak or paddleboard, slinging it in and out of your truck or when hiking through heavy brush. Lined inside with a newly upgraded, closed-cell IceSkin, the cooler offers three times the insulation found in normal soft coolers, meaning ice will stay – well, ice – for days. Close the pack with a secure roll-top seal, and utilize tie-down and lashing points for fixing other gear to the pack, allowing for hands-free traveling. High quality and ergonomic backpack straps guarantee ultra comfort when wearing on your shoulders.

The Quest 25-Quart Backpack comes in two new colors: Arctic White and Sandstone (coming soon). The backpack also features a mesh hip pocket and a water-resistant zippered stow area for extra storage and measures 31" x 12" x 10".
