GRIZZLY® CARTRIDGE CO. PUTS THE BITE INTO THE .45 COLT +P

The Heavy .45 Long Colt +P Premium Ammunition from Grizzly Brings a Higher Level of Performance to Shooters

Rainier, Ore. – Shooters of large-frame revolvers looking for heavy, .45 Colt +P ammo will find the various loads from Grizzly® Cartridge Co. live up to the exacting standards one would expect from match-quality hand loads, let alone a factory-loaded round. Whether being fired from a heavy-duty, large-frame revolver, like a Ruger Blackhawk or Super Blackhawk, or a lever-action rifle like a Marlin 1892, there is a Grizzly .45 Colt +P round perfect for your shooting needs.

The Grizzly .45 Colt is one of the more fabled calibers in history and has remained popular with revolver and lever-gun shooters for decades. The .45 Colt +P are heavy rounds and are not intended for the newer Vaquero, smaller-frame style revolvers. The heavier round is favored among shooters looking for downrange energy, such as knocking over heavier steel targets, or getting a little extra muscle for game animals in hunting situations.

Loaded with a special, custom blend of powders for extreme accuracy and muzzle velocity, you can get Grizzly's .45 Colt +P factory loaded ammunition with precision-cast bullets in a 300-grain LFNGC round with a 1,250-fps velocity. Also available is a 335-grain WLNGC cast lead bullet with a velocity of 1,175 fps. Twenty-round boxes are available for \$25.99. Like all Grizzly Cartridge Co. products, each round is loaded in the USA, and under careful guidelines set by the company founder for precision and quality.
