## ROLL INTO SUMMER WITH THE MULE BY CANYON COOLERS®

### **New to the Adventure Series, Highly Functional and Hard-Working Cooler Features No-Nonsense Wheels for Easy Transport**

No matter where your adventures take you this summer, the new Mule by Canyon Coolers® is guaranteed to be the perfect companion. Ideal for camping, the beach, tailgating or any other outing, the cooler is a must have for keeping food and drinks insanely cold, even in the summer heat. Built tough, and made to be moved with ease, the cooler is equipped with a number of high-tech features making it impressively versatile and highly functional.

Part of the company's Adventure Series, the new Mule is designed to travel. The cooler's innovative, patented design includes two six-inch wheels and a telescoping metal handle, to traverse virtually any terrain without straining yourself. Design doesn't get smarter than this cooler which features wheels, a no-lose drain plug, latches and a handle that all recess completely, making the Mule efficient to pack and park in even the tightest spots.

Like all Canyon Cooler products, this 30-quart cube cooler promises to keep your provisions cold, ice cold. It does this with three inches of pressure-injected foam in all six walls. Newly designed cam latches and a multi-configuration bungee net system combine with push-pull single action bar latches and eight secure tie down points to give you the most durable cooler no matter where you use it – on land or water. No detail overlooked, the lockable Mule also has a built-in bottle opener, two cup holders, and an internal divider slot and basket. Top this off with an unheard of Lifetime Warranty, and you've made an investment that will last forever.

Canyon Coolers manufactures ridiculously cold, seriously tough coolers to keep food and beverages cold for not just days, but weeks. Ultra-tough in design from the drain plugs, latches, and handles these coolers are designed to take a beating from the hot sun in stride. Canyon Coolers are used by hunters, anglers, rafters, outdoor enthusiasts – and anyone else whose adventures are fueled by seriously cold refreshments. To learn more about Canyon Coolers' full-line of premium, ridiculously cold and seriously tough coolers, contact Canyon Coolers at 866-558- 3267 or visit [www.canyoncoolers.com](http://www.canyoncoolers.com).
