ONTARIO KNIFE COMPANY® EXPANDS DEPENDABLE RAT® FIXED BLADE SERIES WITH THE NEW TAK 2 KNIFE

Good Looks and Rugged Dependability Combine for the Ultimate Outdoorsman's Blade

Ontario Knife Company® (OKC®), the award-winning cutlery maker with a more than 130 year history of making some of the best knives on the market, is proud to expand its popular and durable RAT® Series of fixed blades with the introduction of the new TAK 2. The TAK 2 fixed blade knife exudes comfort and reliability by combining a phosphate-coated, high-carbon steel blade with stabilized hardwood handle scales, making it the ultimate outdoorsman's knife.

"OKC RAT series knives have a long-standing reputation of quality and dependability, and the new TAK 2 delivers on this legacy," said Kenneth Trbovich, President and CEO of Ontario Knife Company. "We are extremely proud to add the TAK 2 to the RAT lineup and are confident that customers will find it to be the perfect knife to head outdoors with."

The TAK 2 has an overall length of 9.9-inches with a 4.2-inch long 1075 phosphate-coated high carbon steel blade with a full flat taper grind for excellent slicing and cutting precision. Its beautifully designed honey gold stabilized hardwood handle is not only aesthetically pleasing to the eye, but also comfortable in the hand while in use and offers a solid grip. Although don't let its good looks fool you, this extremely tough fixed blade can tackle nearly every task thrown at it. Whether you're at camp or in the woods, it's the knife you need when you need a knife outdoors.

The USA-made knife comes with a quality black belt-loop style leather sheath and has a retail price of \$129.95.

Founded in 1889, the Ontario Knife Company® is an award-winning knife, cutlery, and tool manufacturer operating out of Upstate New York for over 125 years. OKC® produces a wide range of tools, including cutlery and kitchenware, hunting and fishing knives, machetes, survival and rescue equipment, science and medical tools, and tactical knives. OKC has a long tradition of building knives and tools for the U.S. military, producing high quality equipment that has seen continuous service since WWII. In addition to being a major supplier to the U.S. Armed Forces, OKC leverages a network of distributors, dealers, and major commercial retailers to sell its products nationwide and internationally to over 35 countries. OKC's custom manufacturing division Jericho® Tool, advances capabilities including a broad-spectrum of injection molding, tool and die, and machining operations to provide white label and OEM manufacturing services for consumer and industrial goods. Collectively OKC's product lines and manufacturing services reach the housewares, sporting goods, tactical, security, law enforcement & first responders, education, science & medical, and industrial & agricultural industries.
