HAWKE® OPTICS INTRODUCES THEIR BEST TACTICAL OPTIC YET

The Frontier 1x22 Red Dot is Built for Supreme Accuracy and Durability

[Hawke® Optics](#), a worldwide leader in precision optics, is continuing their evolution into the tactical market with their clearest, brightest, and strongest red dot sight yet. In 2019 Hawke launched their entry level Vantage series of Red Dots, following that up with two new and improved Endurance Red Dot sights in 2020. Both optics have been popular with value minded AR shooters, but the New Frontier 1x22 Red Dot is sure to be a hit with shooters looking for a more premium Red Dot.

Whether you're putting it on an AR, SBR, lever gun, or braced pistol, this sight will get you on target with more confidence and hold up to the recoil of as many rounds as you can put through your gun. The accuracy and durability of this optic is at least as good if not better than any other similarly priced red dot sights on the market.

The biggest selling point to the sight is Hawke's all new Auto Illumination Mode (AIM), which allows for an outstanding battery life expectancy of up to 50,000 hours. A.I.M. capabilities work by automatically turning the illuminated reticle on when the sight senses movement and turning it off when inactivity is detected for longer than 2 minutes. Then the sight will power on again as soon as movement is detected. A 10-stage digital brightness control includes 2 night-vision compatible settings. Paired with a high efficiency LED emitter, the Frontier operates at a daylight-bright setting for several years on a single battery.

The 1x22 Frontier Red Dot uses Hawke's proprietary System H7 optics for the best possible clarity available and features a 2 MOA dot and 1/2 MOA adjustments for ultimate precision. High-grade aluminum construction, recessed brightness controls, guarded turrets, and IPX7 waterproofness are additional features. The sight comes boxed with a low-profile Weaver/Picatinny mount, lower-1/3 co-witness mount with quick-release, and a Micro T-2 footprint for limitless mounting options. Also supplied with a honeycomb sunshade and protective flip-up covers.

MSRP for the Frontier Red Dot is \$329.

About Hawke

#VISIONACCOMPLISHED. Hawke is a worldwide market leader at the forefront of optical performance with class-leading innovation and design offering a complete line of sport optics from rifle, crossbow, shotgun and air gun scopes to binoculars, spotting scopes and accessories. Accuracy, strength, and precision; Hawke optics blend iconic design, exceptional engineering and unrivaled craftsmanship to create an unforgettable viewing experience. As awareness of Hawke Sport Optics continues to grow, more customers are trusting Hawke as the unquestioned industry leader in optics. Learn more at www.hawkeoptics.com.
