THE ONTARIO KNIFE COMPANY® RAT FOLDING KNIFE™ The Perfect Choice For An Every Day Carry (EDC) Knife

The Ontario Knife Company's RAT™ Series of folding knives answers the need for a high-quality knife suitable for everyday tasks at an unbelievably great price. The RAT Folding Knife's superior construction and materials make it the perfect workhorse for everyday tasks, camping or tactical situations — that's a lot of comfort in a pocket-sized companion!

The Ontario Knife Company RAT Series comprises four models: Black Plain Edge, Satin Plain Edge, Black Partial Serration and Satin Partial Serration.

Knife makers have several quality choices to use when crafting a knife's blade, and each brings with it certain strengths or drawbacks. With the primary mission of an EDC knife, Ontario Knife selected AUS8 steel for its RAT Folder. AUS8 has long been touted for its two main strengths: the ability to take an extremely fine (surgical) edge and the ease at which it can be re-sharpened. Both of these qualities rank high for an EDC knife.

Building on the blade's combo edge and superior abilities are the durable, hardened stainless-steel liners; heavy-duty liner lock for a stout lock up, and lightweight, Nylon 6 handles that provide a solid hand purchase under wet or dry conditions.

Open, the Ontario Knife Company RAT Folder spans 8.5 inches, and closed, it measures a full five inches. The blade is 3.5 inches and is available in either a full flat grind or with a partial serration for increased cutting action. The Satin finish provides gift-worthy appeal, while the tactically minded will naturally gravitate toward and appreciate the all-black models.

Other notable features on Ontario Knife Company's RAT Folder that makes it worthy of securing a place in your pocket include dual thumbstuds for easy left- or right-hand operation; an open-post design for easy cleaning, and four-position clip that can be configured for tip down, tip up and right- or left-hand carry.

Founded in 1889, The Ontario Knife Company is a U.S. owned and operated organization that continually stays on the forefront of knife designs and cutting-edge technology. Ontario's military supply roots go deep into its history, as the company has been supplying quality cutlery to the U.S. Military since WWII. Today, the company consistently develops new knife designs that allow military personnel to have the products they need in order to get their jobs done both on and off of the battlefield. Ontario Knife is also especially proud of being selected as the sole provider of the United States Marine Corps OKC3S Multi-purpose Bayonet System and the Model 4 Rescue Strap Cutter. In addition to being a major supplier to the U.S. Armed Forces, Ontario Knife teams with a nationwide network of distributors/dealers to market its products to many diverse consumer and niche markets including the tactical/military, hunting, outdoors, law enforcement and cutlery industries. Worldwide sales activity encompasses more than 46 countries and continues to grow.

For more information about Ontario Knife Company and its industry-leading line of advanced knives, machetes, edged products and specialty tools, contact Ontario Knife Company at P.O. Box 145-26 Empire Street · Franklinville, NY 14737 · Telephone (716) 676-5527 · Or visit www.ontarioknife.com. The Ontario Knife Company is a subsidiary of publicly traded Servotronics, Inc. (listed as NYSE MKT - SVT).
