HEMISPHERE COFFEE ROASTERS™ RELOCATES TO EXPANDED NEW FACILITY

Creators of Great-Tasting Hunter's Blend Coffee™ Moves Production to House Growing Business Needs

Hemisphere Coffee Roasters™, premier coffee roasters and the avid outdoorsmen behind Hunter's Blend Coffee™, is pleased to announce the opening of its expanded new facility in Mechanicsburg, Ohio. The move comes as the demand for responsibly made, great-tasting coffee continues to grow which means the need for more usable space to accommodate efficient and increased warehousing, roasting, bagging, grinding and shipping.

"Hemisphere Coffee Roasters has grown exponentially over the past few years with 25-30 percent growth each year. A much larger facility was long overdue," said Paul Kurtz, Owner of Hemisphere Coffee Roasters. "With more than 5,000 square feet of space on an 11 acre tract of land to accommodate even more warehousing as needed, we're excited to have this new space that will allow for increased efficiency and keep up with our growing production needs," he added.

Hemisphere Coffee roasts and ships about 3,000 to 3,500 pounds of coffee each week, much of which consists of the company's newest blend created by hunters for hunters — Hunter's Blend. "Hunter's Blend is our newest specialty-grade brand designed to wake you up and get you out in the woods. We're all avid outdoorsmen here at Hemisphere Coffee, and we're proud to offer the hunting community great-tasting coffee that values and supports conservation and the hunting lifestyle," added Kurtz.

Hunter's Blend is perfectly roasted coffee harvested directly from Central America and East Asia. It's available in a 12oz. Whole Bean bag, for those who prefer to ground their own coffee, and a 12oz. Ground bag ready for drip brewers (\$12.95 MSRP each). Whichever blend they choose, hunters can feel great knowing they are purchasing more than just a quality bag of roasted coffee, they are helping to directly support growers around the world as well as their hunting community.

The new roasting facility (located at 275 E. Sandusky St, Mechanicsburg, OH 43044) also incorporates a tasting room and retail storefront, which are open Thursdays and Fridays 10am-5pm and Saturdays 9am-2pm. Tours are available upon request.

Hunter's Blend is sourced and roasted by Hemisphere Coffee Roasters who's passion about creating good coffee and doing some good in the process of creating it is at the forefront of its mission. This is why the company operates a direct-trade business model, which means it only works directly with growers from the best producing locations in the world like Kenya, Indonesia, Peru and Nicaragua, where every bean is hand picked by the hard-working people of its community. In fact, twenty-five million families derive their major living from the production of coffee and Hemisphere's Coffee Roasters is dedicated to helping as many as possible. This dedication has thrived for more than 15 years, and because of the company's impactful business model, they have witnessed hundreds of jobs created and people lifted out of poverty.
