## ONTARIO KNIFE COMPANY® INTRODUCES NEW HIKING KNIFE

### Lightweight Durability Combines with Quality and Good Looks for the Perfect Blade to Bring Outdoors

Ontario Knife Company® (OKC®), the award-winning cutlery maker with a more than a 130-year history of making some of the best knives on the market, is proud to announce the addition of the OKC Hiking Knife to its line of fixed blades for outdoor enthusiasts. Both lightweight and durable with a slim profile and sleek-looking Micarta handle, the new Hiking Knife will be your trusted companion when tackling any cutting task outdoors.

“Whether you’re out for a day hike or exploring one of our nation’s many beautiful national parks, having a quality, trusted blade on hand while you hit the trails can come in handy,” said David Fenske, Vice President of Ontario Knife Company. “The new OKC Hiking Knife is functional, sleek-looking, and made with quality lightweight materials making it THE trusted tool for your next excursion outdoors,” he added.

Weighing a mere 5 ounces, the new OKC Hiking Knife is a lightweight fixed blade knife that won’t weigh you down or let you down. In fact, its slim profile makes it perfect for tossing in your pack or wearing on your belt so you can tackle even the toughest terrain without the extra weight. Not only is it easy to carry, the OKC Hiking Knife has an overall length of 8.2-inches with a full-tang, 3.4-inch drop point blade made from quality 420HC stainless steel for impressive cutting precision.

Perhaps the Hiking Knife’s most eye-catching feature is its handle. It features a unique, outdoors-inspired design with artistic coloring that resembles a topo map. Of course, it doesn’t just look good, the handle is extremely functional too as it’s made with quality Micarta, which makes for a solid grip, even when wet. An important feature when faced with the elements outdoors. The quality continues beyond the blade and handle, with its included leather sheath with belt loop for convenient storage and an easy carry. The new OKC Hiking Knife is proudly made in the USA.

Founded in 1889, the Ontario Knife Company® is an award-winning knife, cutlery, and tool manufacturer operating out of Upstate New York for over 125 years. OKC® produces a wide range of tools, including cutlery and kitchenware, hunting and fishing knives, machetes, survival and rescue equipment, science and medical tools, and tactical knives. OKC has a long tradition of building knives and tools for the U.S. military, producing high quality equipment that has seen continuous service since WWII. In addition to being a major supplier to the U.S. Armed Forces, OKC leverages a network of distributors, dealers, and major commercial retailers to sell its products nationwide and internationally to over 35 countries. OKC’s custom manufacturing division Jericho® Tool, advances capabilities including a broad-spectrum of injection molding, tool and die, and machining operations to provide white label and OEM manufacturing services for consumer and industrial goods. Collectively OKC’s product lines and manufacturing services reach the housewares, sporting goods, tactical, security, law enforcement & first responders, education, science & medical, and industrial & agricultural industries.
