HAWKE® OPTICS OFFERS NEW, COMPACT AIRMAX SCOPE FOR TODAY'S LATEST BULLPUP AND FORWARD-LOADING AIR RIFLES

The New Compact 30 SF Airmax Riflescopes are a Perfect Match for Compact, Modern Hunting Air Rifles

Hawke® Optics is at the forefront in producing quality sporting optics that perform in the field at an amazing value to consumers. Already the leader in optics for modern, high-power air rifles, Hawke proudly announces their new Airmax 30 SF Compact series of scopes for the latest bullpup-design and forward-loading air rifles.

Many of us grew up shooting an air rifle as our first exposure to pulling the trigger. While high-power air rifles have been around for many years, the recent explosion of bigger, higher-powered air rifles and hunting opportunities for them, has truly taken off and become a bit of a phenomenon. As the air rifle market expanded to include newer companies, caliber options and rifle styles, the need for optics that can withstand the rigors of air-rifle recoil, and provide the optical quality to match had to be met. Hawke Optics Airmax line of scopes is widely considered as the top choice for serious air-rifle shooters. With the newer bullpup and forward-loading air rifles styles, the need for an accurate, adjustable, compact scope was realized with the all-new Airmax 30 SF Compact series of scopes.

The 30 SF Compact series scopes are all built of a shortened 30mm main mono-tube with a wide-angle view for maximum hunting vision and shortened eye relief for use with the shorter rifles. These scopes are 16-layer fully-multicoated for maximum light transmission and clarity. They all have side focus control with infinite parallax adjustment and a three-inch wheel for making focus adjustments with minimal movement. The scopes have 1/10 MRAD capped, resettable target turrets for easy return to zero. The AMX IR reticles are glass-etched and have red illumination with six levels of brightness that have an off position between each level. Each scope is fully nitrogen purged and is water-, shock- and fog proof.

There are three models of the Airmax 30 SF Compact. The 3-12x40 SF retails for \$359.00. The 4-16x44 SF retails for \$379.00 and the 6-24x50 SF retails for \$399.00. Like all Hawke Optics products, all Airmax 30 SF Compact riflescope models carry Hawke's No-Fault Lifetime Warranty. No questions asked – it's covered.

About Hawke

#VISIONACCOMPLISHED. Hawke is a worldwide market leader at the forefront of optical performance with class-leading innovation and design offering a complete line of sport optics from rifle, crossbow, shotgun and air gun scopes to binoculars, spotting scopes and accessories. Accuracy, strength and precision; Hawke optics blend iconic design, exceptional engineering and unrivalled craftsmanship to create an unforgettable viewing experience. As awareness of Hawke Sport Optics continues to grow, more customers are trusting Hawke as the unquestioned industry leader in optics. Learn more at www.hawkeoptics.com.
