ONTARIO KNIFE COMPANY® PROMOTES PAUL TSUJIMOTO TO VICE PRESIDENT OF ENGINEERING

Veteran Knife Designer Recognized for His Contributions to New Product Development, Quality Control, and Manufacturing Processes at OKC®

Ontario Knife Company® is proud to announce the promotion of renowned industry veteran Paul Tsujimoto to his new role as Vice President of Engineering. In this senior executive position, Tsujimoto will continue his leadership of OKC's efforts to design new products and update existing product lines while implementing continuous improvements to manufacturing processes and quality control measures. As Vice President of Engineering, Tsujimoto reports directly to the President and CEO of Ontario Knife Company and manages the engineering, drafting, and quality management teams.

Tsujimoto has more than 35 years of experience in the manufacturing industry including his previous role as Director of Engineering at Ontario Knife Company. Prior to rejoining OKC in December 2013, Tsujimoto held positions including Senior Engineer at Cutco® and KA-BAR®, Manager of Engineering at Ontario Knife Company, and Manufacturing Engineer at Camillus® Cutlery Company. Tsujimoto holds a Bachelors Degree in Industrial Technology from the SUNY College at Buffalo.

"The entire team at OKC congratulates Paul Tsujimoto on his well-deserved promotion," said Kenneth Trbovich, President and CEO of OKC. "Paul's contributions to our engineering and design efforts have been exceptional."

Since rejoining OKC's leadership team two years ago, Paul has partnered with senior management to implement the previously reported capital investment and plant expansion to OKC's historic Franklinville, New York facility. His accomplishments include the building of a Drafting team and an expanded Quality Department, the adoption of cutting edge technologies including 3D printing for rapid prototyping, and providing engineering and design support for the launch of OKC's new molding, machining, and tool works division. Additionally, Tsujimoto co-chairs the New Products Committee that has developed and refined dozens of new products during his tenure including the Best of the Best award winning Bushcraft Field Knife and the Agilite® line of premium kitchen cutlery.

"I am humbled by this recognition and so very grateful to be part of the Ontario Knife team," said Mr. Tsujimoto. "The projects we have in development now are among the most exciting of my career."

Founded in 1889, the Ontario Knife Company® is an award-winning knife, cutlery, and tool manufacturer operating out of Upstate New York for over 125 years. OKC® produces a wide range of tools, including cutlery and kitchenware, hunting and fishing knives, machetes, survival and rescue equipment, science and medical tools, and tactical knives. OKC has a long tradition of building knives and tools for the U.S. military, producing high quality equipment that has seen continuous service since WWII. In addition to being a major supplier to the U.S. Armed Forces, OKC leverages a network of distributors, dealers, and major commercial retailers to sell its products nationwide and internationally to over 35 countries. OKC's custom manufacturing division Jericho Tool®, advances capabilities including a broad-spectrum of injection molding, tool and die, and machining operations to provide white label and OEM manufacturing services for consumer and industrial goods. Collectively OKC's product lines and manufacturing services reach the house wares, sporting goods, tactical, security, law enforcement & first responders, education, science & medical, and industrial & agricultural industries.

For more information about Ontario Knife Company and its industry-leading line of advanced knives, machetes, edged products and specialty tools, contact Ontario Knife Company at P.O. Box 145-26 Empire Street · Franklinville, NY 14737 · Telephone (716) 676-5527 · Or visit www.ontarioknife.com. The Ontario Knife Company is a subsidiary of publicly traded Servotronics, Inc. (NYSE MKT - SVT).
