HAWKE® OPTICS UPGRADES THE SIDEWINDER RIFLESCOPE LINEUP FOR 2020

The New Sidewinder Line Features Advanced H5 Optics for Clarity, Field-of-View and Eye Relief

Hawke® Optics, the world leader in quality sporting optics that perform in the field at an amazing value to consumers, launches a whole new level of feature-driven riflescope performance with the redesigned Sidewinder line. Hawke's best-selling line of scopes are now better than ever, ensuring you outstanding accuracy from every angle and for any shooting discipline.

Available in First Focal Plane (FFP) and Second Focal Plane (SFP), every Sidewinder model has a 30mm main tube and is loaded with Hawke's new H5 optics that bring you an ultra-wide 24° field of view. Enjoy the comfort, accuracy and speed you can only get from four-inches of eye relief. The low-dispersion, high-grade Crown glass is 18-layer multi-coated.

Also new for 2020 are resettable, precision locking turrets with 1/10 MRAD clicks that now have a Witness Window that provides instant visual confirmation of your turret position. This provides peace of mind and helps to eliminate second guessing on longer shots. You can tighten up your sight window with the index-matched, removeable side wheel focus adjustment and keep your eye on the target while adjusting the zoom with the removeable, magnification throw lever. The reticle is illuminated with high-intensity, adjustable Multi-LED lighting for accuracy in every lighting condition. Tune things in with the fast focus eye bell that has a lock ring to ensure things stay just as you like them.

The Second Focal Plane Sidewinder Riflescope models include the 4.5–14×44 SF with a 10× Half Mil reticle, the 6.5–20×44 SF with a 20× Half Mil reticle, 4–16×50 SF with the SR Pro II reticle, the 4–16×50 SF with the 10× Half Mil reticle, 6–24×56 SF and 8–32×56 SF, both with a 20× Half Mil reticle. There is also a 6–24×56 SF and 8–32×56 SF model, both with the SR Pro II reticle.

There are two First Focal Plane models, the 4–16×50 SF 6–24×56 SF, each with the FFP Half Mil reticle. All of the Sidewinder models are shock proof, waterproof and dust proof, and are fully nitrogen purged. Additionally, all Sidewinder models are all-caliber rated, so they can withstand the harshest recoil. Need further proof that the new 2020 Sidewinder Riflescopes from Hawke Optics are the best choice for you? They are all backed by the Hawke No-Fault Lifetime Warranty. It breaks – they fix it. Period.

About Hawke

#VISIONACCOMPLISHED. Hawke is a worldwide market leader at the forefront of optical performance with class-leading innovation and design offering a complete line of sport optics from rifle, crossbow, shotgun and air gun scopes to binoculars, spotting scopes and accessories. Accuracy, strength and precision; Hawke optics blend iconic design, exceptional engineering and unrivalled craftsmanship to create an unforgettable viewing experience.
