UNLEASH UNLIMITED SPEED: RINEHART TARGETS'® NEW-FOR-2025 TARGET TAKES ON HIGH-VELOCITY CROSSBOWS

New 20-inch Speed Unlimited Target is Built to Dominate even the Fastest Crossbows

Janesville, WI — [Rinehart Targets®](#), the worldwide leader in quality archery targets, is proud to announce it has partnered with [SpyderWeb®](#) to bring archers the newest target innovation engineered to exceed the demands of modern, high-velocity crossbows: the Rinehart Speed Unlimited Target. The compact 20"x20" target is expertly designed to not only stop the fastest bolts, but to withstand more of those impacts than any competing target.

Featuring a tough Spylar™ woven mesh face, the Rinehart Speed Unlimited Target ensures science-backed stopping power and effortless bolt and arrow removal. High-quality, weather-resistant materials means this target is as tough as it is reliable, making it a must-have target for both backyard practice and range sessions. The highly visible silk-screened scoring rings offer dozens of separate target zones as well as a Minute of Angle grid for precision adjustment. Additionally, the combination of its lightweight design and easy-grip handle make transporting the target a breeze.

“The new 20-inch Speed Unlimited Target is built for archers and crossbow shooters who demand a target that can keep up with their speed and precision,” said James McGovern, President of Rinehart Targets. “We’re extremely excited to add this powerhouse new target to the Rinehart lineup.”

Proudly made in the USA, the 20-inch Speed Unlimited Target is built tough to withstand relentless practice sessions while maintaining its integrity over time. Whether you’re preparing for your next hunt, or just out sharpening your skills, the new Rinehart 20-inch Speed Unlimited Target is the ultimate practice partner.
