ONTARIO KNIFE COMPANY[®]'S RAT[™]-3 IS MISSION-CRITICAL SURVIVAL GEAR **Incredibly Rugged, Reliable Design Trusted by Experts When the Chips Are Down**

Ontario Knife Company[®] has been delivering proven knife designs that are the first and last line of defense and survival in some of the most demanding environments on Earth. The company cut its teeth on tactical lines back in its inception more than a century ago, and since has been unmatched in developing compact, versatile knife solutions tailored for the outdoor enthusiast. The Ontario Knife Rat[™]-3 Sheath is no exception — created by experts to stand up to punishing applications that can mean the difference between life and death in the field.

This exceptionally powerful design is crafted from some of the toughest materials on the market — the fixed blade is a 5" flat ground 1095 carbon steel blade — with a black textured powder coating created to stay razor sharp and built to last for generations. The Ontario Knife Rat-3 comes complete with a rugged canvas micarta handle in four model configurations: a serrated blade edge, or plain edge with either Black or Foliage Green sheath.

When you pack a knife as part of your survival contingency plan should the unexpected occur in the wilderness, you want the assurance that this tool is going to slice effortlessly through rope, wood, or flesh. The Ontario Knife Rat-3 delivers this kind of performance and more — it fits in your pack or on your belt with ease, as it's a mere 7.8" in overall length, while the blade has a 3.5" cutting edge, and thickness of .125". In fact, all Rat-3 knife options include the specially designed sheath with a boot clip and TekLok[™] attachment options. Measuring 2" x 2 3/4", it's made of black Kydex and snaps securely around belts up to 1 1/2" wide, offering a wide range of holes and slots for securing the knife sheath in numerous different positions.

Like all Ontario Knife products, the Ontario Knife Rat[™]-3 is proudly made in the U.S.A, and is backed by craftsmanship and expertise of the company that's been supplying knives and accessories to outdoorsmen and our military for decades.

Founded in 1889, The Ontario Knife Company is a U.S. owned and operated organization that continually stays on the forefront of knife designs and cutting-edge technology. Ontario's military supply roots go deep into its history, as the company has been supplying quality cutlery to the U.S. Military since WWI, beginning with its famous 18 inch Machete. Today, the company consistently develops new knife designs that allow military personnel to have the products they need in order to get their jobs done both on and off of the battlefield.

Ontario Knife is also especially proud of being selected as the sole provider of the United States Marine Corps OKC3S Multi-purpose Bayonet System. In addition to being a major supplier to the U.S. Armed Forces, Ontario Knife teams with a nationwide network of distributors/dealers to market its products to many diverse consumer and niche markets including the tactical/military, hunting, outdoors and cutlery industries. Worldwide sales activity encompasses more than 28 countries, and continues to grow.

For more information about Ontario Knife Company and its industry-leading line of advanced knives, machetes, edged products and specialty tools, contact Ontario Knife Company at P.O. Box 145-26 Empire Street · Franklinville, NY 14737 · Telephone (716) 676-5527 · Or visit www.ontarioknife.com. The Ontario Knife Company is a subsidiary of publicly traded Servotronics, Inc., (listed as SVT on NYSE-Amex exchange.)
