## **ONTARIO KNIFE® HOSSOM FOLDER™ CUTS TO THE CHASE IN ANY HUNTING APPLICATION Industry Leader's 'Retribution Series' Provides the Ultimate in Versatility**

The Ontario Knife® Company has been on the razor's edge of innovation for the hunting and tactical industries for decades. Now, the venerated brand has launched the Ontario Knife Hossom Folder™ series designed by knife craftsman Jerry Hossom – tailor-made for quick, efficient use in the field and out.

With both a medium and long version, The Ontario Knife Company covers all the bases for a myriad of hunting applications faced by outdoor enthusiasts in a wide range of environments. From slicing through rope like butter, to dressing a trophy buck in minutes, it gets the job done with dexterity and precision.

Built to last for generations, the new Ontario Knife Hossom Folder™ series is constructed with some of the most indestructible materials on the planet. The satin finish blade is crafted from NO90Co-Cobalt enhanced stainless steel, with a Titanium liner lock to keep it secure no matter how rugged the terrain or usage is. The incredibly rugged green Micarta handle is perfectly engineered for a firm grip every time, despite sweat, blood and dirt contact. It fits like a glove into its equally sturdy black nylon sheath, for low profile, high performance usage in seconds.

The Large Ontario Knife Hossom Folder™ has a 4.265" blade length that's .200" thick, for an overall size of 10.625". The medium option packs a punch in a smaller package with its .160" keen blade a mere 3.875" long, for an overall dimension of 8.625". Both fit easily into any backpack or belt, for simple carrying.

Founded in 1889, The Ontario Knife Company is a U.S. owned and operated organization that continually stays on the forefront of knife designs and cutting-edge technology. Ontario's military supply roots go deep into its history, as the company has been supplying quality cutlery to the U.S. Military since WWI, beginning with its famous 18 inch Machete. Today, the company consistently develops new knife designs that allow military personnel to have the products they need in order to get their jobs done both in and out of the battlefield.

Ontario Knife is also especially proud of being selected as the sole provider of the United States Marine Corps OKC3S Bayonet. In addition to being a major supplier to the U.S. Armed Forces, Ontario Knife teams with a nationwide network of distributors/dealers to market its products to many diverse consumer and niche markets including the tactical/military, hunting, outdoors and cutlery industries. Worldwide sales activity encompasses more than 28 countries, and continues to grow.
