## **GEAR KEEPER® DELUXE INSTRUMENT TETHER ENSURES ALL HUNTING GEAR REMAINS SAFE AND ACCESSIBLE**

### **Keep Rangefinders, GPS and Dog Transmitters and Trackers “At-the-Ready”**

Whether your hunting adventures take you through the brush, forests or even marshy terrain, know all your gear will remain safe and on your person with the Gear Keeper® Deluxe Instrument Tether. Ideal for almost any piece of equipment you need to carry this season, the tether allows you find it when you need it – and let it go – with the confidence it will retract back into place, ready for its next use.

Part of the RT4 Series, the Deluxe Instrument Tether has been specifically designed to protect gear in severe environments with maximum break strength. With a number of superior features, the tether might be the most highly functioning piece of gear you'll carry into the field. Don't be afraid to wade into a marsh to get into position, the patented flushing system clears sand and debris from the unit, and is salt-water proof. Built to last, the tether has a 60# break strength Spectra/Nylon line and is encased in a high-impact housing meaning it can take a knock or two, or more without issue.

A patented Q/C Connector System makes it easy to change out gear when you need it, and fast. The flexible system has three mounting options so you can have gear on your belt, a vest, a pack or anywhere else you prefer. The system includes a snap clip which attaches to a D-ring belt loop, a threaded stud that screws into the back of the retractor and can penetrate fabric or webbing, and a Velcro strap which securely wraps and cinches around any loop, belt or strap.

The original Gear Keeper system was engineered specifically for SCUBA diving literally born out of a need to secure items in situations when hands are otherwise occupied. Gear Keeper systems are now available in more than 3,000 configuration options and used in applications from hunting, fishing and hiking to law enforcement, military and trucking.

For more information about the Gear Keeper Deluxe Instrument Tether, or other Gear Keeper Products contact Hammerhead Industries, Inc. at 1501 Goodyear Avenue, Ventura, CA 93003 • Phone: (805) 658-9922 • Fax: (805) 658-8833 • Or visit [www.gearkeeper.com](http://www.gearkeeper.com).
