## THE ALL-NEW HAWKE® OPTICS ENDURANCE LASER RANGE FINDER IS PERFECT FOR HUNTING AND LONG-RANGE SHOOTING

### The New Endurance Range Finder with OLED Technology Gives Precision and Value a New Look

Hawke® Optics, a worldwide leader in high-quality, exceptional-performing, high-value sporting optics, proudly introduces a new level of accurate, clear laser range finders in the new Endurance lineup. These value-packed units match quality optics, 6x magnification and a new high-visibility display to produce the perfect laser range finder for hunting and target-shooting applications.

It's no secret that laser range finders have changed how we look at accuracy, especially when it comes to hunting and shooting. When something is as critical as shot placement, knowing the exact range to the target is information every hunter and shooter needs. As the technology improves, the level of accuracy in range finding has increased. With the new Endurance line, Hawke Optics has taken things a step further.

There are three models in the Endurance line. The 700 accurately reads distances from 5 to 766 yards. The 1000 has a range of 5 to 1,094 yards, while the 1500 has a 5 to 1,640 yard range. All are accurate to +/- one yard. Each model has Hawke's new OLED display with highly visible red illuminated icons. The range finders operate in one of five modes – Standard, Horizontal Distance, Angle, Rain and Hunt.

The optics in the Endurance line are fully multi-coated with BK-7 prisms. As you would expect from Hawke, light transmission is outstanding for true color viewing. 6x magnification and an adjustable diopter help bring things into focus to better long-range accuracy. The wide-range of vision gives you a field of view of 420 feet at 1,000 yards. The unit is nitrogen purged and is water- and shock-proof. This amount of magnification and optical clarity lets you use the range finder to scan locations and really investigate your target or game animal before the shot.

The Endurance Range Finders are small and compact with an ergonomic design molded to fit the palm of your hand for steady use. They come with a carry case, lens cloth, wrist strap and a CR2 battery. These products are covered by Hawke's two-year warranty.

#### *About Hawke*

#VISIONACCOMPLISHED. Hawke is a worldwide market leader at the forefront of optical performance with class-leading innovation and design offering a complete line of sport optics from rifle, crossbow, shotgun and air gun scopes to binoculars, spotting scopes and accessories. Accuracy, strength and precision; Hawke optics blend iconic design, exceptional engineering and unrivalled craftsmanship to create an unforgettable viewing experience. As awareness of Hawke Sport Optics continues to grow, more customers are trusting Hawke as the unquestioned industry leader in optics.
