## PYRAMEX® INTRODUCES NEW GL613CBZ MICRO-FOAM NITRILE A4 CUT LEVEL 3 IMPACT GLOVE

### *Next-Level Protection, Dexterity and Comfort for High-Risk Work Environments*

Pyramex®, a leading provider of personal protective equipment for hardworking men and women, is proud to announce its latest innovation in hand protection: the GL613CBZ Micro-Foam Nitrile A4 Cut Level 3 Impact Glove. This advanced new glove is engineered to offer maximum protection, dexterity and comfort for workers who spend their days in high-risk environments. Whether you're working in oil and gas industries, construction or manufacturing, the GL613CBZ glove is designed to keep you safe, comfortable and productive.

Featuring an ANSI/ISEA Level 3 impact rating and an A4 cut rating, the GL613CBZ glove is built to protect in even the harshest environments while still allowing for maximum flexibility and the tactile precision needed for complex tasks on the job. The glove incorporates Pyramex's newest PMXTECK technology, which provides an exterior built for extreme durability while offering a soft, smooth interior for long-lasting comfort. So comfortable in fact, wearers will forget they're even wearing them.

The GL613CBZ delivers a superior grip even in wet or oily conditions thanks to its micro-foam nitrile-dipped palms and fingers. This means this glove is a top choice for workers who deal with slippery surfaces or hazardous materials. The glove's 18G HPPE liner delivers triple protection against punctures, cuts, and abrasions, providing a perfect balance between flexibility and protection. Custom-designed, high-visibility impact protection on the back of the hand offers workers an extra layer of defense while making them easily seen in low-light conditions, enhancing overall on-the-job safety.

The new GL613CBZ glove is touchscreen compatible, allowing workers to easily use electronic devices like smartphones or tablets without having to remove the gloves. Reinforced thumb saddles add to the glove's durability while its knit wrist cuff provides added comfort and security, offering a snug fit with easy on-and-off wear while preventing debris from coming in.

The new GL613CBZ work gloves are offered in a variety of sizes ranging from small through 2XL. For more information, visit [pyramex.com](http://pyramex.com).

Pyramex Safety delivers high-quality safety products through its innovative and stylish product lines. The company designs and manufactures a variety of personal protective equipment from eye, head, hand, welding, cooling, and hearing protection to hi-vis work wear, respirators, and ergonomic gear. Founded in 1991, the company has more than 3,000 distributors in over 65 countries and is committed to investing countless hours to research, design and testing to ensure Pyramex products meet the highest industry safety standards.
