GEAR KEEPER® INTRODUCES NEW COMBO MOLLE MOUNT MAKING A PROVEN DESIGN EVEN BETTTER 360-Degree Rotating MOLLE Mount Now Includes Two MOLLE Attachment Options In One

The need: accessible, fully functional gear while preventing loss in the field. The solution: Gear Keeper® Combo MOLLE Mount. Hammerhead Industries, Inc. understands military personnel cannot settle for less than tactical excellence when it comes to the performance of vital gear. Ultra-compact, quiet and durable, the new Gear Keeper Combo MOLLE Mount now has two attachment options – a Velcro strap MOLLE mount and a compact mount – in one package.

The new dual attachment feature has been incorporated into an already proven design – the 360-degree rotating MOLLE Mount. Swiveling a full 360-degrees, the Gear Keeper 360-degree rotating MOLLE Mount keeps gear accessible and most importantly – usable at any angle. Simply pull up, down or to the side to use your gear where and when you need it. Release, and the gear retracts safely and securely back to your person. The fully rotational feature also works to minimize resistance and maximizes the life of the line which is constructed of stainless steel spring hardware and includes a high-impact casing for the utmost durability. In addition, as with all Gear Keeper products, the Combo MOLLE Mount features a patented flushing system which keeps it free of sand and debris.

The Gear Keeper Combo MOLLE Mount is available in three models for a range of applications and needs. Model RT4-5170 has a retraction force of 3 oz. and extends to 36". Model RT4-5171 has a retraction force of 6 oz. and also extends to 36". RT4-5174 has retraction force of 9 oz. and extends to 32".

The original Geer Keeper system was engineered specifically for SCUBA diving literally born out of a need to secure items in situations when hands are otherwise occupied. Gear Keeper systems are now available in more than 3,000 configuration options and used in applications from hiking, fishing and hunting to law enforcement, the military and trucking.

For more information about the new Gear Keeper Combo MOLLE Mount, contact Hammerhead Industries, Inc. at 1501 Goodyear Avenue, Dept. P, Ventura, CA 93003 • Phone: (805) 658-9922 • Fax: (805) 658-8833 • Or visit www.gearkeeper.com.
