## EXPERIENCE SUPERB ACCURACY AT EXTREME DISTANCE WITH THE HAWKE® OPTICS FRONTIER 34 LONG RANGE RIFLESCOPE

### First Focal Plane Optical System and 34mm Main Tube Make for the Best Optic for Long-Range Shooting

Hawke® Optics, a world leader in quality sporting optics that perform outstanding in the field while maintaining optimum value for the consumer, knows that accuracy at any range requires an optic built with precision, clarity, and light transmission. The premium First Focal Plane Frontier rifle scope line with 34mm main tubes is exactly what you need, and it is available to customers and dealers everywhere. The Frontier 34 FFP scopes were designed for extreme long-range shooters, or shooters looking for precision accuracy and a scope with maximum adjustment.

The Frontier 34 FFP riflescopes are available in either 3-18x50 or 5-30x56 with both configurations available with two FFP illuminated reticle options - Mil Pro Ext and MOA Pro Ext. These riflescopes give you up to 46 MRAD or 158 MOA, depending on your specific model, of elevation adjustment. They are truly unparalleled in high-end shooting optics. You have 11 levels of red illumination that light up the entire reticle, with off stops in between each level for quick access back to your preferred brightness.

As part of Hawke's System H7 series, the Frontier 34 FFP are unmatched for clarity due to an outstanding 21 layers of advanced coatings on all glass surfaces, producing extremely high light transmission and the clearest field of view. The scope is built on a 34mm mono-tube chassis that is machined from high-grade aluminum for extreme durability and houses a side focus adjustment turret allowing you zero in on your target from close to extreme ranges. Hawke's patented Zero, Lock 'n Stop turrets are resettable, lockable and feature a built-in return to zero feature, providing you the flexibility to adjust to conditions in the field. The Frontier 34 FFP are the ultimate optic and contains features reserved for our most advanced riflescopes.

All Frontier 34 FFP models have 4-inches of eye relief and locking ocular focus. The magnification and parallax adjustments move smoothly, and the turret clicks can be felt and heard clearly at each individual click. All models utilize a removable throw lever. As with all Hawke scopes, they are fully water, shock and fog proof and nitrogen purged, and come with Hawke's No Fault Lifetime Warranty. If you haven't checked out these scopes, and you want to have the ultimate in ELR optics topping your rifle, what are you waiting for?
