**GEAR KEEPER® RETRACTABLE HOLSTER KEEPS
DOG TRAINING TRANSMITTERS, GPS UNITS AND RADIOS AT THE READY
For Hunting Gear that Needs to Stay Protected and Accessible**

If you're like every other waterfowler, chances are you've experienced the loss of important gear such as your dog training transmitter. It's puzzling how it can easily 'fly' away from you, and be forever lost somewhere in the field or water. Duck hunters everywhere are rejoicing at the long awaited solution for keeping dog training transmitters safe, secure and ready for use. Made by Hammerhead Industries, Inc. the company renowned for creating high quality holsters and gear attachments systems, the Gear Keeper® Retractable Holster is perfect for the hunter who needs his gear secure, protected and within easy reach.

The Gear Keeper Retractable Holster makes it virtually impossible to lose items like your dog training transmitter as it attaches directly to the holster itself with a durable nylon/Spectra line. In fact, it will keep transmitters safely housed even while trekking to and from your blind or boat, or while waiting out in the muck. And, because you're most likely duck hunting in unpredictable weather, from hot and humid to cold and icy conditions, the holster is built to have maximum break strength – withstanding a wide range of climates. All this means it will be dependable and weather the test of time.

You chose your gear carefully, it is important. But the product development team at Gear Keeper knows staying focused on calling in those ducks is even more important which is why it strives to create products like the Gear Keeper Retractable Holster, which makes it easy to grab gear, use it and let it go, knowing it will go back into place every time. The Retractable Holster works with the Retractable Gear Attachment System which can connect using a snap clip, threaded stud mount, Velcro strap or rotating belt clip.

The Gear Keeper Retractable Holster comes in sizes small and medium. The small retractable holster (Model HR9-2041) has inside dimensions of 2-1/4 inches by 1-1/4 inches by 3-3/4 inches ideal for dog training transmitters, GPS units or radios. It has a retraction force of 6 oz. and extends to 36 inches. The medium retractable holster (Model HR9-4042) has inside dimensions of 2 inches by 1-1/4 inches by 5-1/2 inches perfect for dog training transmitters and GPS units. It has a retraction force of 9 oz. and extends 32 inches.

Also available for the avid duck hunter is the Gear Keeper Call Lanyard – perfect for keeping calls untangled and ready for use at a moment's notice.

For more information about the new Gear Keeper Retractable Holster (small/medium), contact Hammerhead Industries, Inc. at 1501 Goodyear Avenue, Dept. P, Ventura, CA 93003 • Phone: (805) 658-9922 • Fax: (805) 658-8833 • Or visit www.gearkeeper.com.
