ONTARIO KNIFE COMPANY® ADDS CLASSIC TOUCH WITH NEW HUNT PLUS™ SERIES RECURVE KNIFE

OKC® Adds to Award-Winning, American-Made Hunt Plus Series Knives with the Classic-Styled Recurve

Ontario Knife Company® (OKC®), the award-winning cutlery maker with over 130 years of experience and heritage, announces a new addition to the acclaimed HUNT PLUS™ series with the Recurve, an all-purpose hunting knife with a classic style blade.

Hunting means a lot of things to many people, but one common thread that binds all hunters together is heritage. While modern tools are nice, there are certain designs that never go out of style simply because they work and will continue to work extremely well. When those styles can be combined with modern materials, great things can happen. This is where the new OKC HUNT PLUS Recurve Knife fits into the series. The drop-point blade knife has an overall length of 9.125 inches. With a 4.375-inch long 55-57 HRC-rated, uncoated stainless-steel blade that is precision ground to hold a razor-sharp edge. The handle is the same ergonomic design formed from a durable synthetic-rubber compound as the other knives in the series, which allows for a solid, no-slip grip. It comes with a durable nylon sheath.

“When you think of a classic hunting knife blade, it has a graceful drop-point blade with a sweep curve that makes it good for field dressing, skinning and processing,” said Andrew Yates, Vice President of Sales & Marketing. “The Recurve is a natural addition to the HUNT PLUS Series and blends the rugged design of the series with the classic blade of a legendary hunting knife. We feel this is a knife you’d be proud to pass down to the next generation when you’re ready.”

The HUNT PLUS Recurve is proudly backed by a lifetime warranty and **Made in the USA**.

Founded in 1889, the Ontario Knife Company® is an award-winning knife, cutlery, and tool manufacturer operating out of Upstate New York for over 125 years. OKC® produces a wide range of tools, including cutlery and kitchenware, hunting and fishing knives, machetes, survival and rescue equipment, science and medical tools, and tactical knives. OKC has a long tradition of building knives and tools for the U.S. military, producing high quality equipment that has seen continuous service since WWII. In addition to being a major supplier to the U.S. Armed Forces, OKC leverages a network of distributors, dealers, and major commercial retailers to sell its products nationwide and internationally to over 35 countries. OKC’s custom manufacturing division Jericho® Tool, advances capabilities including a broad-spectrum of injection molding, tool and die, and machining operations to provide white label and OEM manufacturing services for consumer and industrial goods. Collectively OKC’s product lines and manufacturing services reach the house wares, sporting goods, tactical, security, law enforcement & first responders, education, science & medical, and industrial & agricultural industries.
