HAWKE® OPTICS STRAIGHT SPOTTING SCOPE HITS THE MARKET

HAWKE ADDS STRAIGHT EYEPIECE MODEL TO NATURE-TREK COMPACT SPOTTING SCOPE LINEUP

[Hawke® Optics](#), a worldwide leader in quality sporting optics that perform outstanding in the field while maintaining optimum value for the consumer, has added a much-desired straight eyepiece spotting scope to their Nature-Trek lineup for 2023.

The Nature-Trek spotting scope family offers exceptional optical performance in a lightweight and waterproof modern design. A Fully Multi-Coated optical system combined with BAK-4 Porro prisms produce extremely clear and sharp images. The ultra-compact 56mm models feature barrel focusing, and the ever-popular angled eyepiece 9-27x56 is now accompanied by a straight eyepiece 13-39x56. Both models are supplied with a neoprene stay-on case, and the new straight model includes Hawke's recently released Window Mount.

The new compact Nature-Trek 13-39x56 Spotting Scope features barrel focusing with straight twist-up rubber eye piece, delivering 39x magnification in a scope the size of your hand! The magnification ring is rubber coated, and the spotter dons a tripod attachment point on the bottom. The Window Mount attaches directly into the attachment point and is an easy-to-use option to help you take a better look at subjects from the comfort of your vehicle. The straight eyepiece is also a benefit for hunting out of a blind or any sitting position, spotter and shooter situations, and a great addition to your range day bag.

Hawke's No-Fault Lifetime Warranty applies to their spotting scopes, so though they are confident in their durability and quality, you always have a peace of mind with your optic! The spotter is also nitrogen purged and is waterproof and fog proof. Weighing in slightly over its angled companion at 33.3 oz, it's extremely compact and ideal to slide into a backpack or glove box and becomes a superior option on long hikes or hunts. With an MSRP of \$349, the new Nature-Trek Straight Spotting Scope with Window Mount is an affordable, compact, and clear choice for hunters looking for an ultra-compact spotting scope.

About Hawke

#VISIONACCOMPLISHED. Hawke is a worldwide market leader at the forefront of optical performance with class-leading innovation and design offering a complete line of sport optics from rifle, crossbow, shotgun and air gun scopes to binoculars, spotting scopes and accessories.
