HAWKE® OPTICS INTRODUCES NEW FULLY ADJUSTABLE BINOCULAR HARNESS PRO PACK

Hawke® Optics, a worldwide leader in quality sporting optics that perform outstanding in the field while maintaining optimum value for the consumer, knows just how important it is to have your binoculars within easy reach when you're in the field. Hawke's newly developed Binocular Harness Pro Pack makes room for everything you need fully protected and at the ready.

Featuring a comfortable, close-fitting, and quiet design; the Hawke Pro Pack offers an exceptional carry system for your binoculars. Comfortably fitting up to 12x50 binoculars, the enclosed pack is the perfect way to keep your binoculars safe and dry while you are battling the elements.

Hawke's new Binocular Harness Pro Pack is designed with fully adjustable shoulder straps made from treated nylon, making carrying your binoculars easy and comfortable. The MOLLE system on the front, both sides, and bottom gives you more room for accessory mounting. The pack has a breathable mesh back for comfort in warmer weather and a zipper pouch to store your tags or other small items. Additionally, a protective rain cover is provided, along with a bungee to attached Hawke's Spudz Lens Cleaning Cloth inside.

The Pro Pack also includes an easy-open laser rangefinder pouch that can be mounted on either side for left- and right- handed use, making it easier than ever to carry all your essential optics into the field. A stretchable bungee is built inside the pouch to secure your rangefinder in those moments where your time in the field needs quick reaction. Hawke's new binocular pack is compact and lightweight, keeping the strain off your neck and minimizes bulkiness in the field. Learn more about the Pro Pack and other binocular carry systems at www.hawkeoptics.com.

About Hawke

#VISIONACCOMPLISHED.
