THE ONTARIO KNIFE COMPANY® SENECA Ready For The Rigors Of Your Next Outdoor Expedition

Built in the tradition and skill of famed knifemakers of the 19th Century, The Ontario Knife Company® has proudly introduced the Seneca hunting knife. The Seneca is one of three knives named after the picturesque Finger Lakes Region of upstate New York and the largest of the series.

The Ontario Seneca knife was designed as a traditional straightback blade with a curved edge and flat back. Measuring a full 10.5 inches the Ontario Seneca gives heft and a weighty feel worthy of hunting knife. The Seneca's blade is crafted from 420 Stainless Steel and features a 50-55 HRC — important factors in a hunting-knife design. While the blade is honed to a fine edge, the dull back allows the wielder to use his or her fingers to safely concentrate force when needed. The curve concentrates that force to the point, making cutting easier. The Ontario Seneca's stout design is well suited to many hunting and outdoors tasks such as chopping, slicing and picking.

The best steel in the world isn't worth a trip to the *back forty* without a handle that provides a solid grip for the user. For this reason, The Ontario Knife Company applied a modern approach to the Seneca's classic lines with the incorporation of a new ergonomic, mold-injected handle designed to reduce blisters and hot spots. The modern addition features a polypropylene under mold and a Krayton over mold for superior fit, texture and grip — whether using it while wet or dry; cutting a rope or dressing out a trophy game animal.

Founded in 1889, The Ontario Knife Company is a U.S. owned and operated organization that continually stays on the forefront of knife designs and cutting-edge technology. Ontario's military supply roots go deep into its history, as the company has been supplying quality cutlery to the U.S. Military since WWII. Today, the company consistently develops new knife designs that allow military personnel to have the products they need in order to get their jobs done both on and off of the battlefield. Ontario Knife is also especially proud of being selected as the sole provider of the United States Marine Corps OKC3S Multi-purpose Bayonet System and the Model 4 Rescue Strap Cutter. In addition to being a major supplier to the U.S. Armed Forces, Ontario Knife teams with a nationwide network of distributors/dealers to market its products to many diverse consumer and niche markets including the tactical/military, hunting, outdoors, law enforcement and cutlery industries. Worldwide sales activity encompasses more than 46 countries and continues to grow.

For more information about Ontario Knife Company and its industry-leading line of advanced knives, machetes, edged products and specialty tools, contact Ontario Knife Company at P.O. Box 145-26 Empire Street · Franklinville, NY 14737 · Telephone (716) 676-5527 · Or visit www.ontarioknife.com. The Ontario Knife Company is a subsidiary of publicly traded Servotronics, Inc. (listed as NYSE MKT - SVT).
