## DICKINSON ARMS EXPANDS PISTOL LINE WITH THE NEW RA-9

### The Affordable and Adaptable RA-9 9mm Handgun Packs Serious Value with an Accurate Punch

[Dickinson Arms](#), a world-renowned leader in high-quality firearms, enters the polymer pistol market with the adaptable and affordable RA-9. This 9mm striker-fired handgun brings accuracy, attention to detail, and a comfortable feel, with a price tag that is on target to lead the category.

Every company has a striker-fired, polymer-framed pistol these days. What sets the Dickinson Arms RA-9 apart from the pack is a high level of attention to detail and a seriously low price point. These imported handguns will impress you with accuracy and quality - two things Dickinson Arms is known for.

The RA-9 is a striker-fired, single-action, semi-auto pistol chambered in 9x19 parabellum. It has a 4.15-inch steel barrel and a trigger-actuated safety. The overall length is 7.57 inches. The RA9 has a 17+1 capacity with a polymer frame with two interchangeable backstraps to help give you the perfect fit and finger groves molded into the grip for an added feel. This is a comfortable pistol that you'll enjoy shooting.

The RA9 slide has a QPQ non-glare finish and comes in matte black, OD Green, FDE, and camo. There is also an aluminum-framed competition version coming that has a longer 7.92-inch threaded barrel, optic-ready slide, and an aluminum competition magwell for faster reloads. The RA-9 series from Dickinson Arms is on target to be the handgun you need. Learn more at the [Dickinson Arm's website](#).
